Scared of spiders? No? You might change your mind when you meet the..

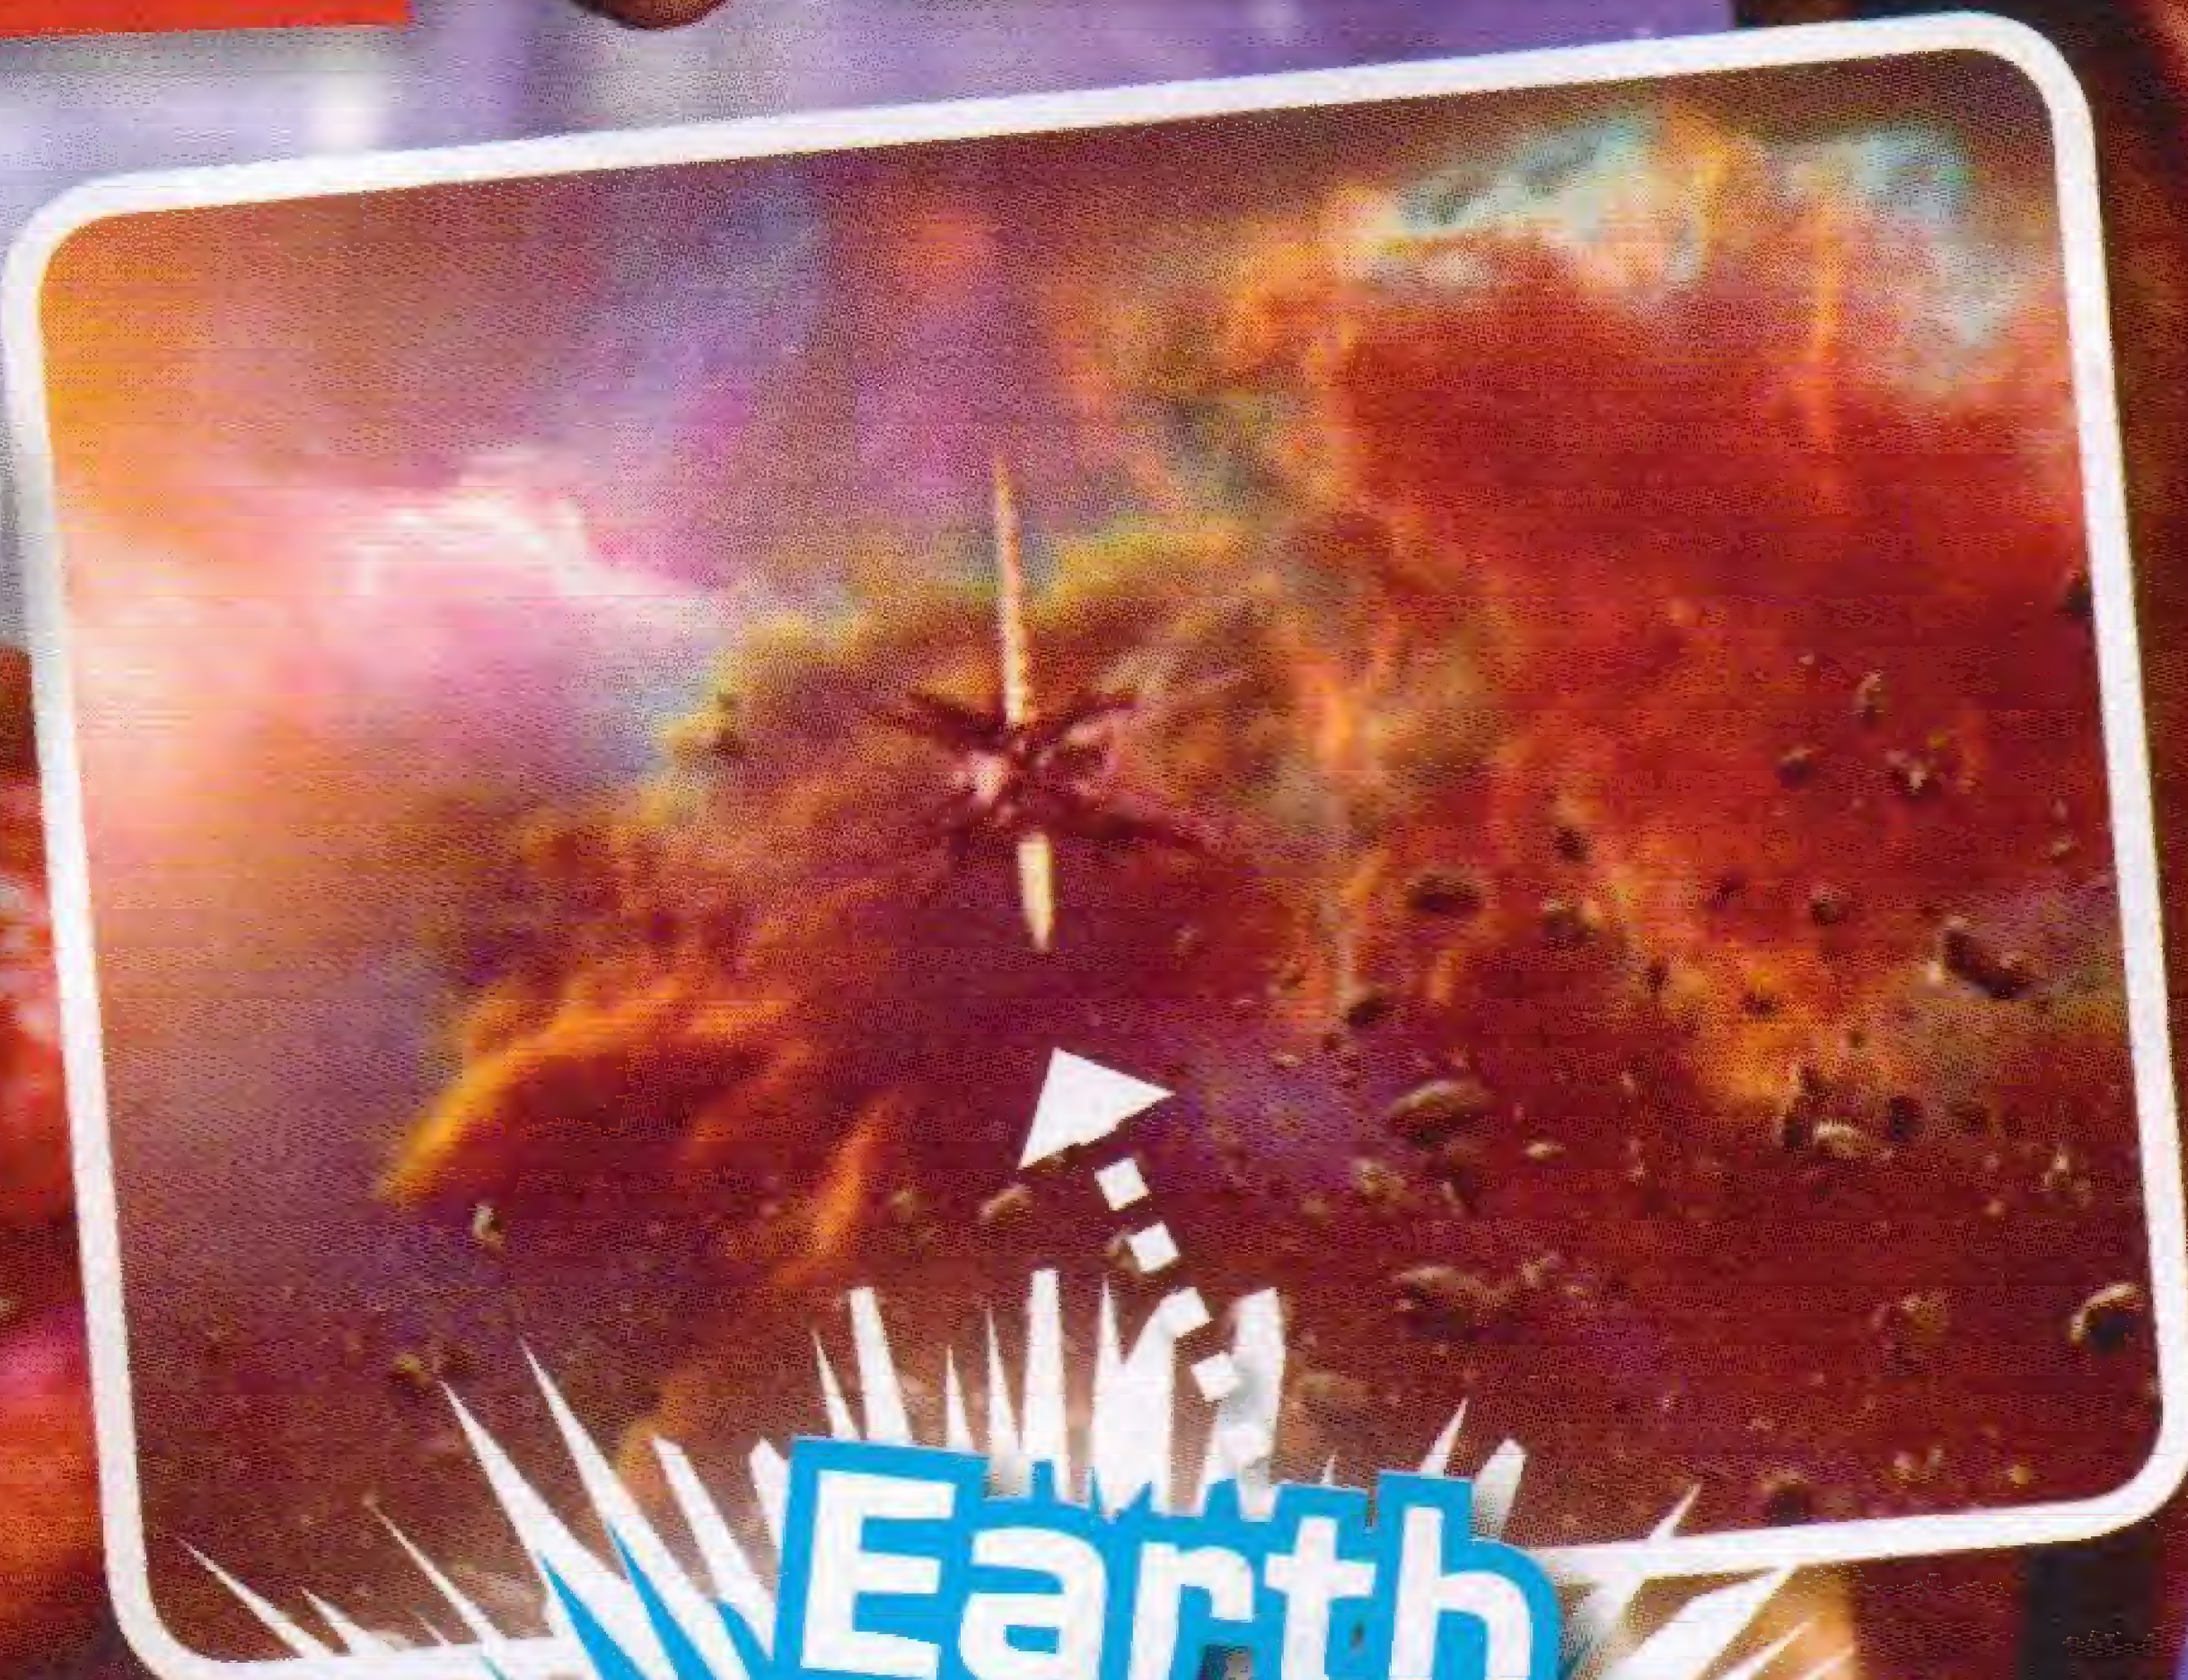

EMPRESS OF THE RACNOSS

SPIDER STORY

Massive and extremely nasty, the Empress of the Racnoss is part-spider, part-humanoid. She wanted to awaken her unborn children and let them eat everyone on the Earth. Yuck.

DARK TIMES

The Racnoss were around billions of years ago in the Dark Times. They liked nothing better than to eat whole planets. Greedy Racnoss!

Earth shock!

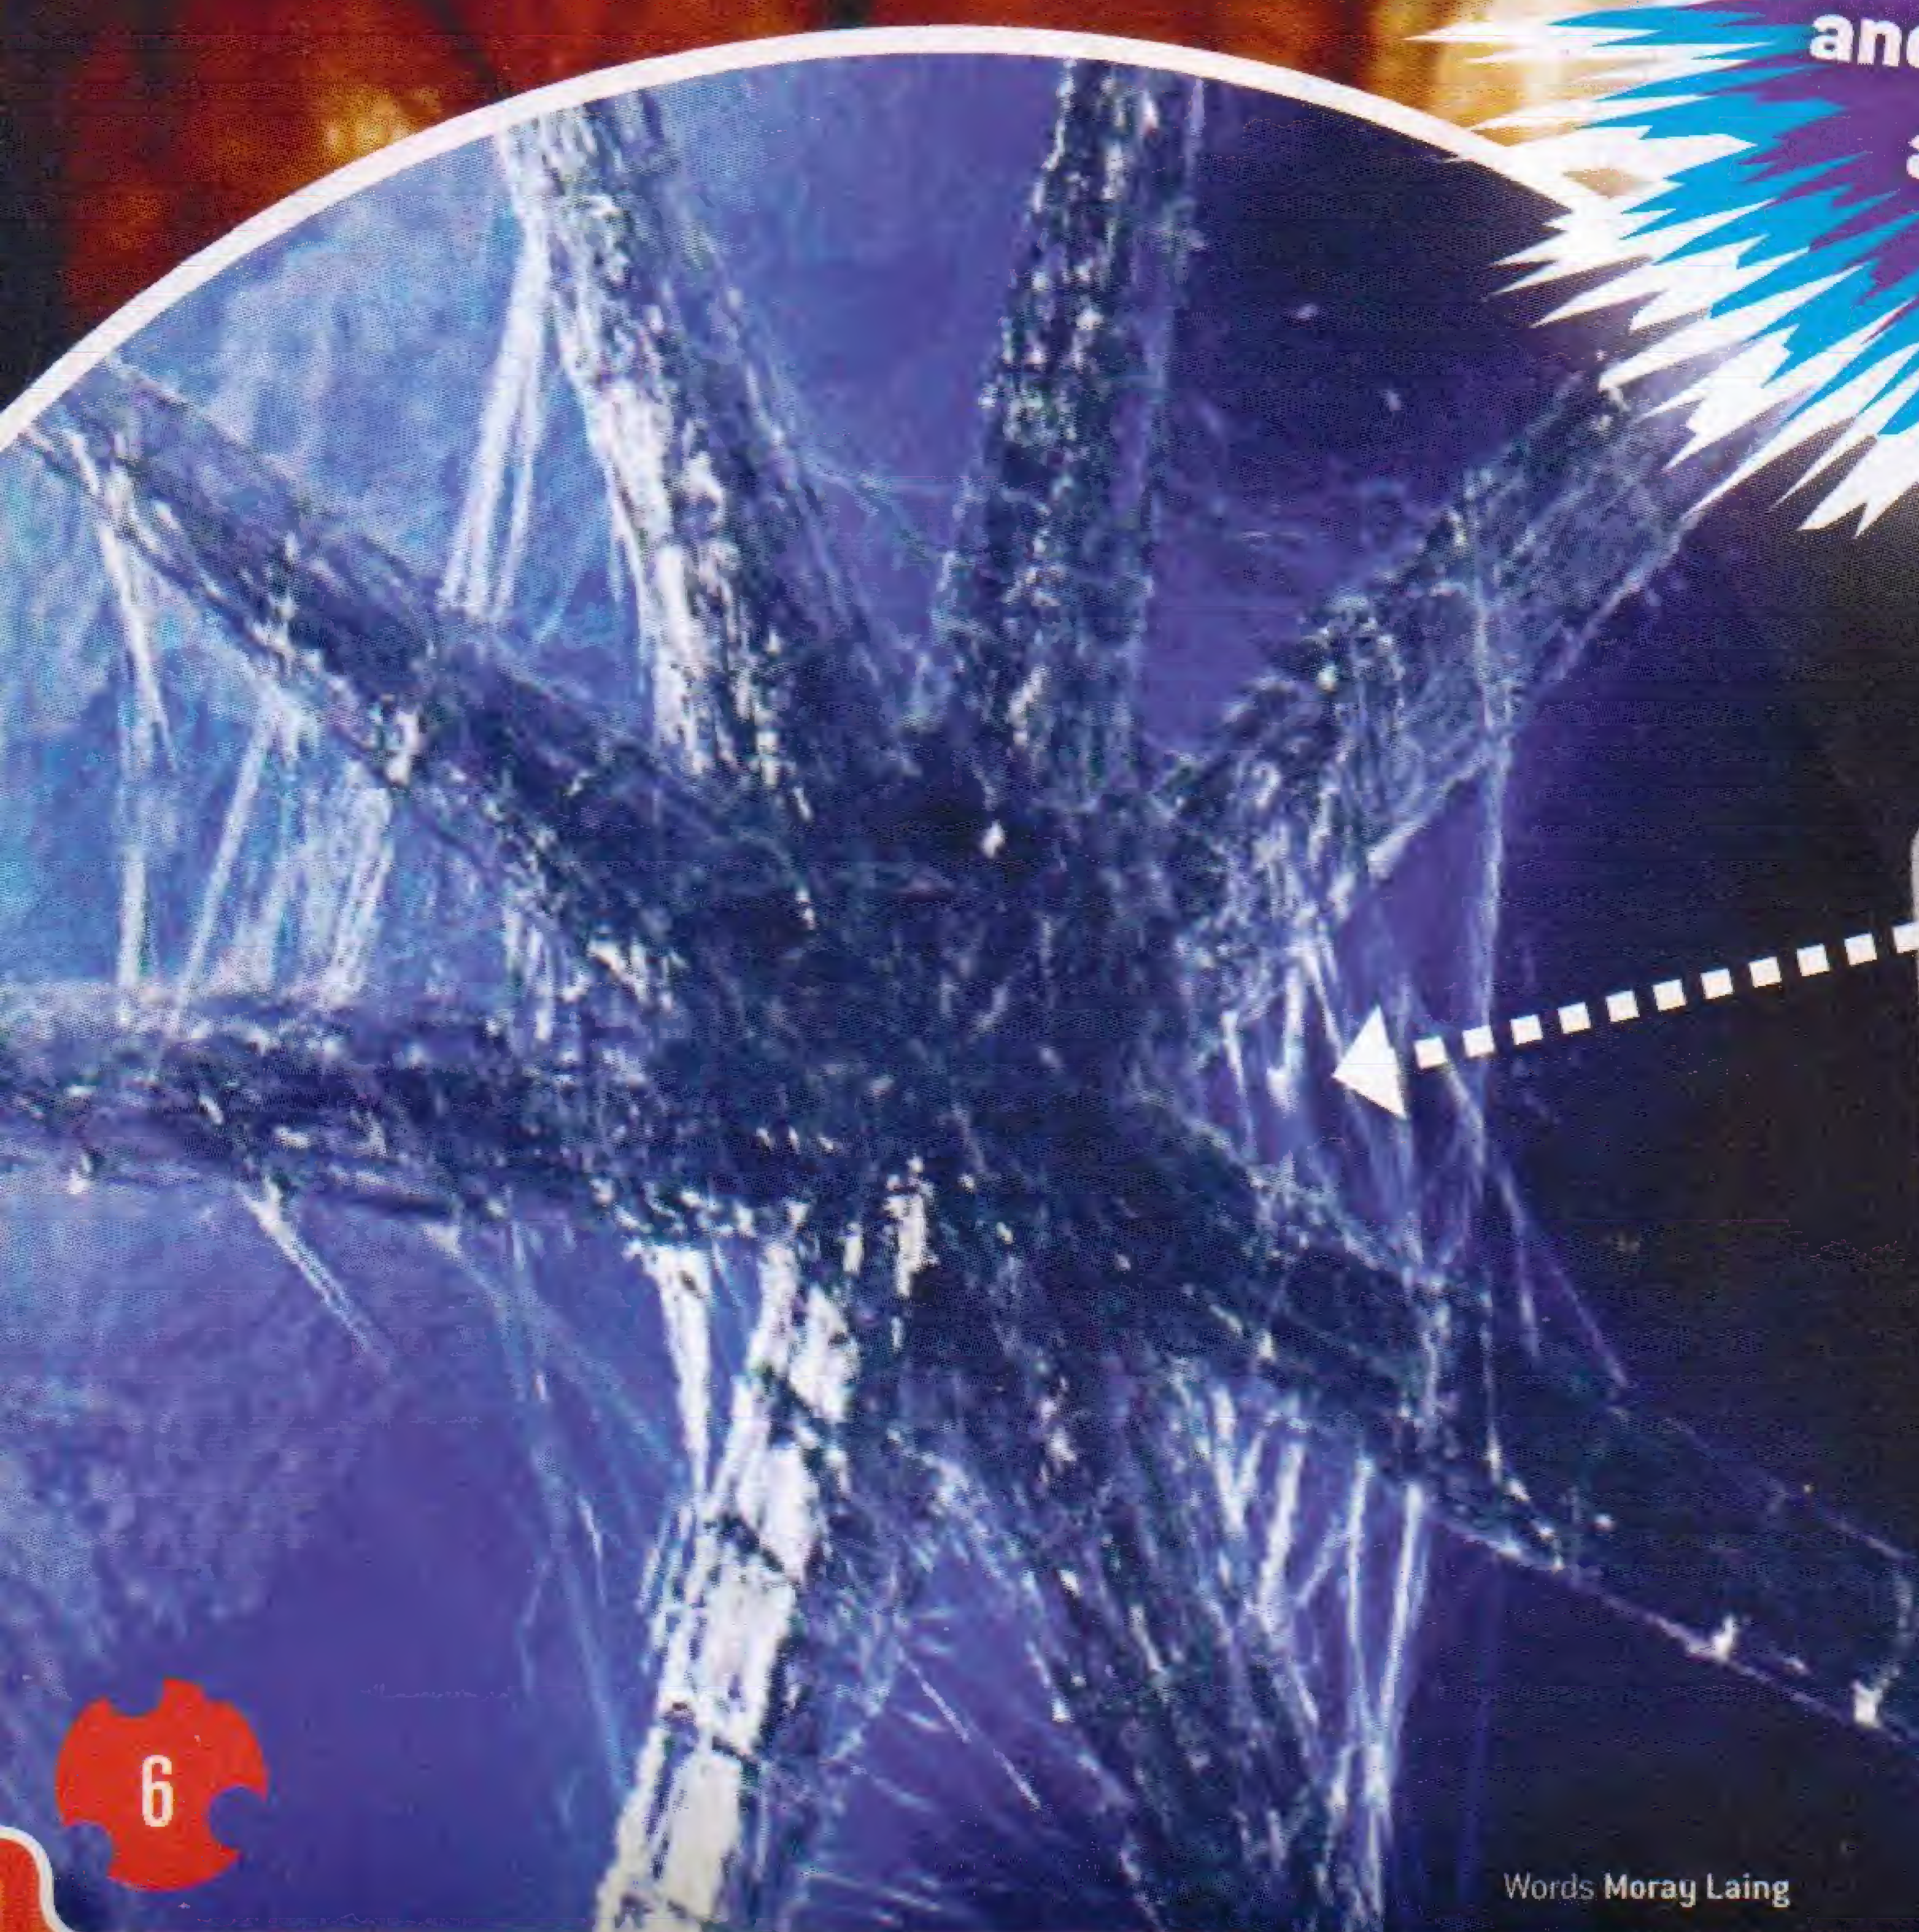

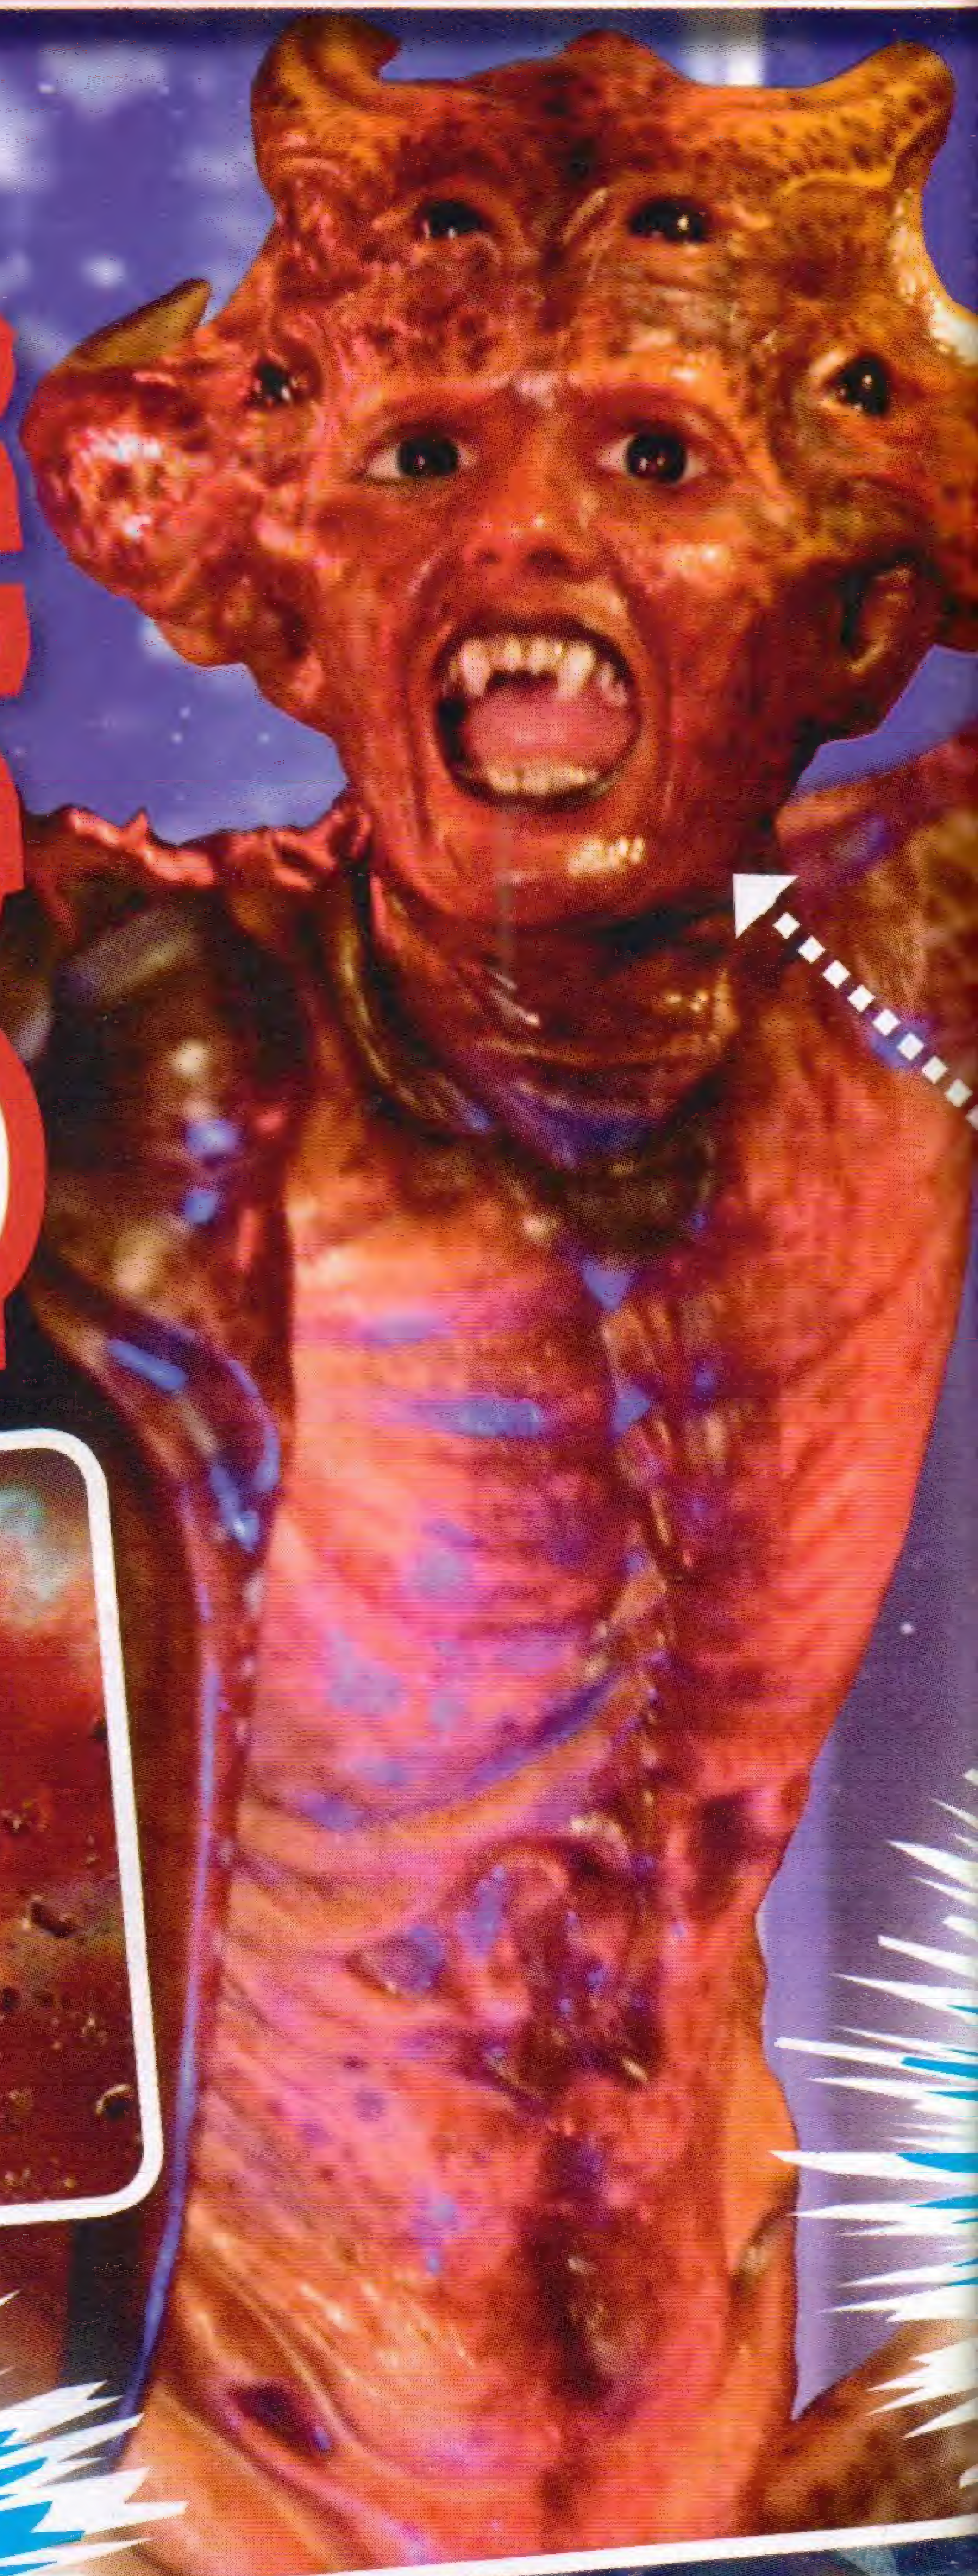

The Racnoss were nearly all destroyed in the Dark Times. Some escaped and planet Earth formed around the unborn creatures.

THE WEBSTAR

Like a huge spider's web in space, the Webstar was the large alien ship belonging to the Empress. It was destroyed, along with the Empress, by the army.

LANCE

The Empress used Lance to free her children. Lance fed Huon Particles to his bride to be – and these particles woke the Racnoss in the centre of the Earth.

HUNGRY

The Racnoss are born starving – so if they had managed to reach the Earth's surface, they would have eaten everyone in sight!

TOP SCARES

The most horrible Racnoss moments!

REMOTE CONTROL!

Using Pilot Fish to kidnap Donna the bride in a taxi.

FORCE FEEDING

Forcing Lance to drink Huon Particles when Donna escaped.

YUM!

Eating Donna's boss for Christmas dinner!

SPIDER FOOD

Feeding Lance to her newly born children. Horrible!

ANGRY ALIEN

The Empress was furious to find out the Doctor is a Time Lord.

SPIDER SMILE

Watch out for those teeth – sharp and sinister, she has a wicked smile!

Hidden

The Empress hibernated for many years on the edge of the universe, but was woken when Torchwood dug into the centre of the Earth, disturbing her children.

SPIDER BABIES

A million Racnoss are born every minute. That's LOADS!

BIG BODY

The Empress has a large, shiny red body which looks a lot more spider than human.

MAKE IT!

Beast mask

Beware the big Beast mask!

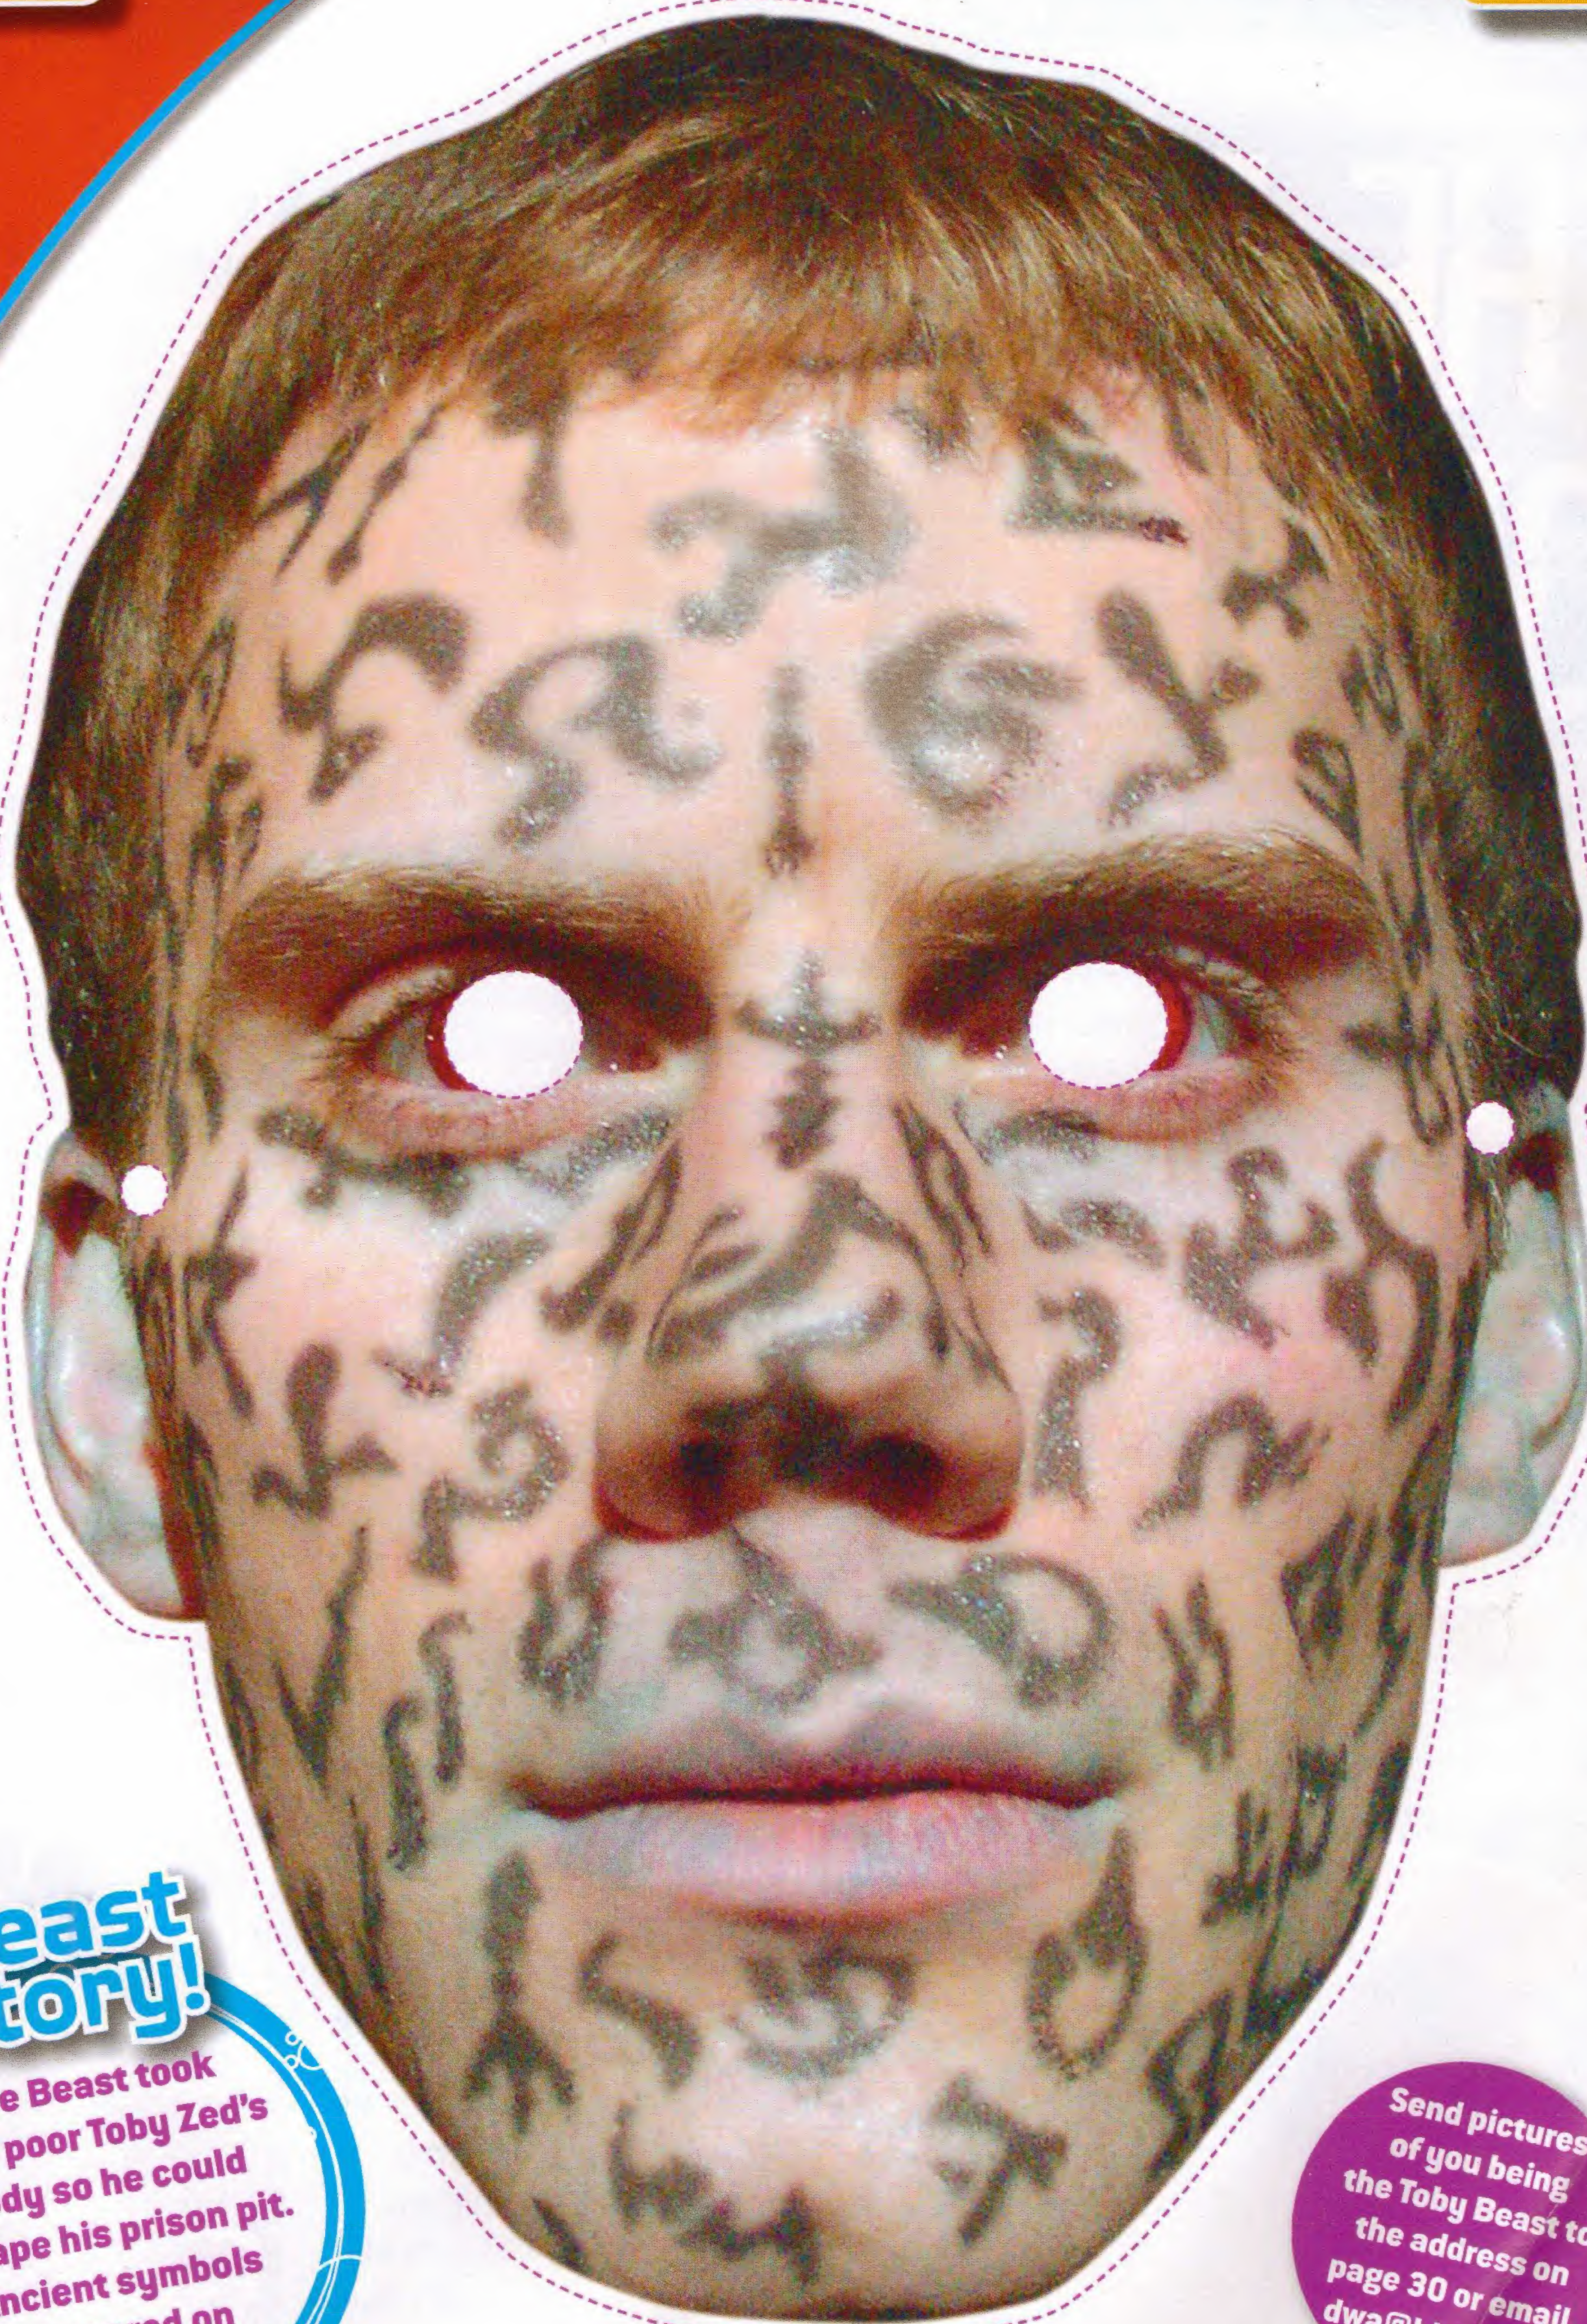

You will need:

- scissors • PVA glue
- some thin card
- elastic or string

1 Cut out the Beast's head on the right and stick it onto a piece of thin card. Make sure you have finished with page 24 first!

2 When dry, cut around the mask with a pair of scissors. Carefully cut the eyes out too.

3 Use a piece of string or elastic to fix the mask to your face. Make a hole on each side and tie the string to both sides. Ask an adult to help you make sure it is the right length.

Beast story!

The Beast took over poor Toby Zed's body so he could escape his prison pit. Ancient symbols appeared on Toby's face.

Send pictures of you being the Toby Beast to the address on page 30 or email dwa@bbc.co.uk

Time's up for the 9th Doctor in...

THE PARTING OF THE WAYS

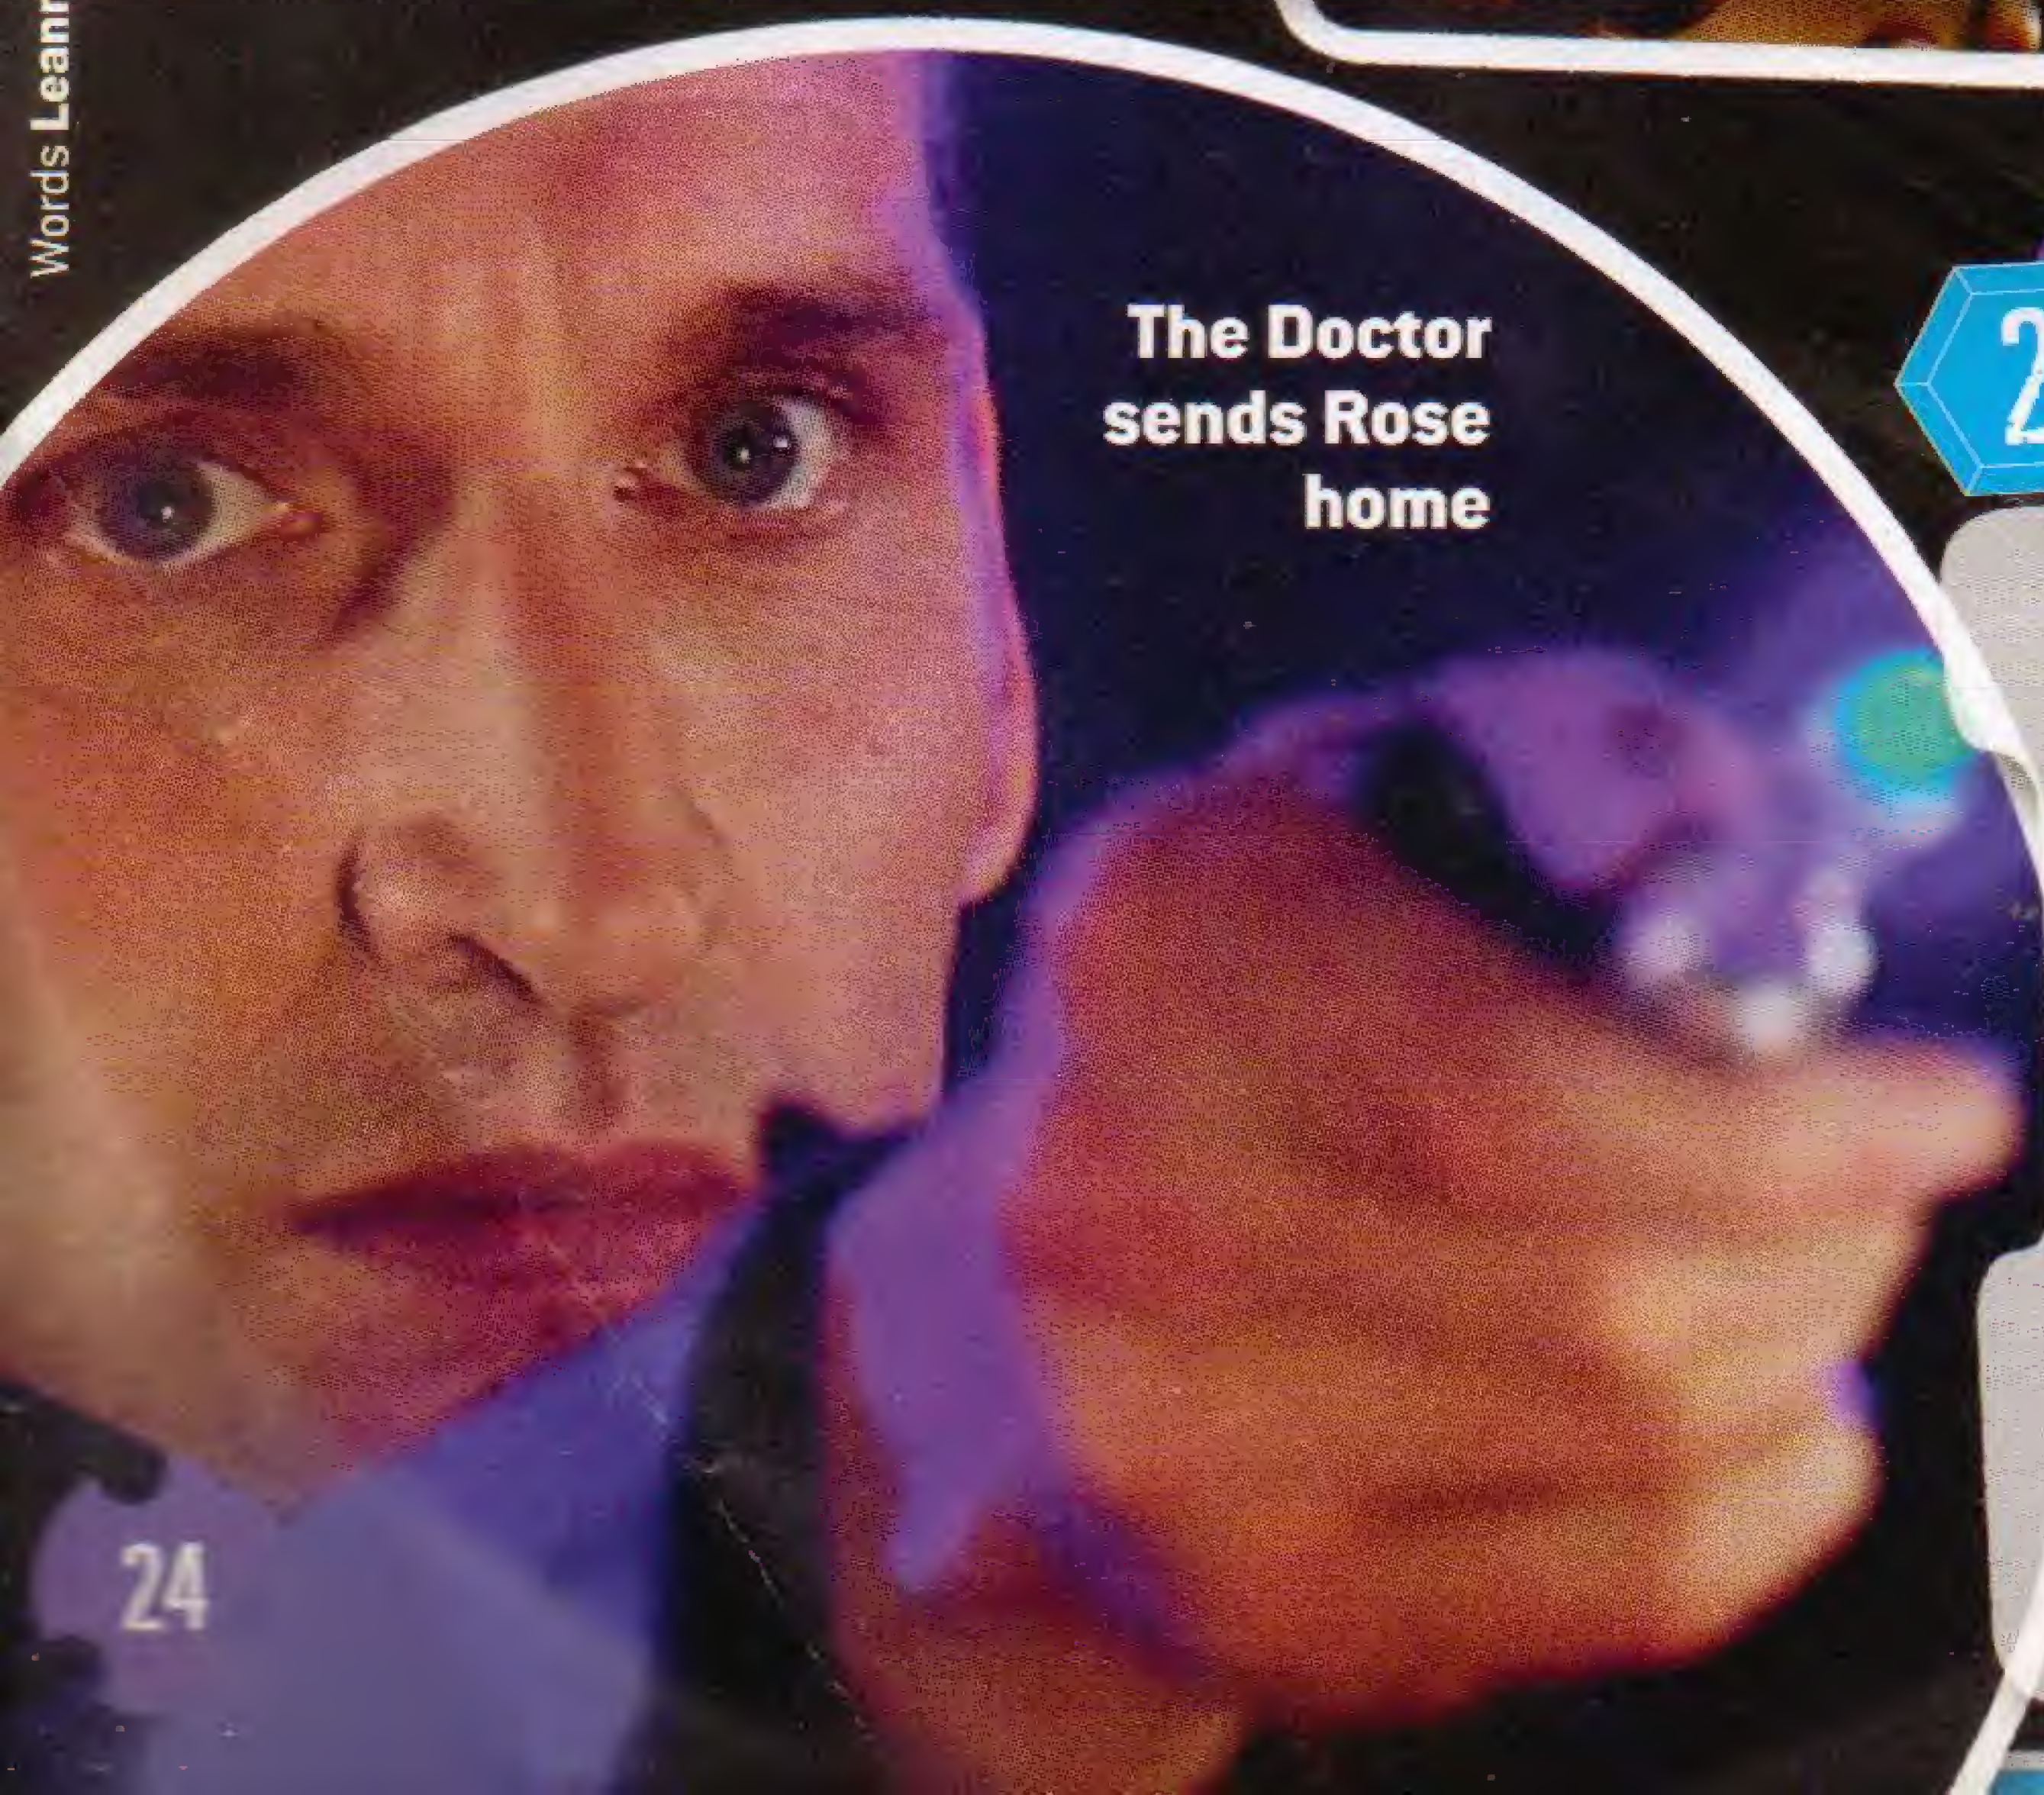

WHAT'S IT ALL ABOUT?

The TARDIS materialises on the Dalek ship and the Doctor and Jack rescue Rose. A force field around the TARDIS protects them and allows the Doctor to talk to the Daleks and discover how they survived.

1 EMPEROR

The Doctor thought the Daleks had been destroyed in the Time War, but they survived through the Emperor. He rebuilt an army of Daleks using dead humans. The Daleks worship their Emperor, but the Doctor is the one thing they fear.

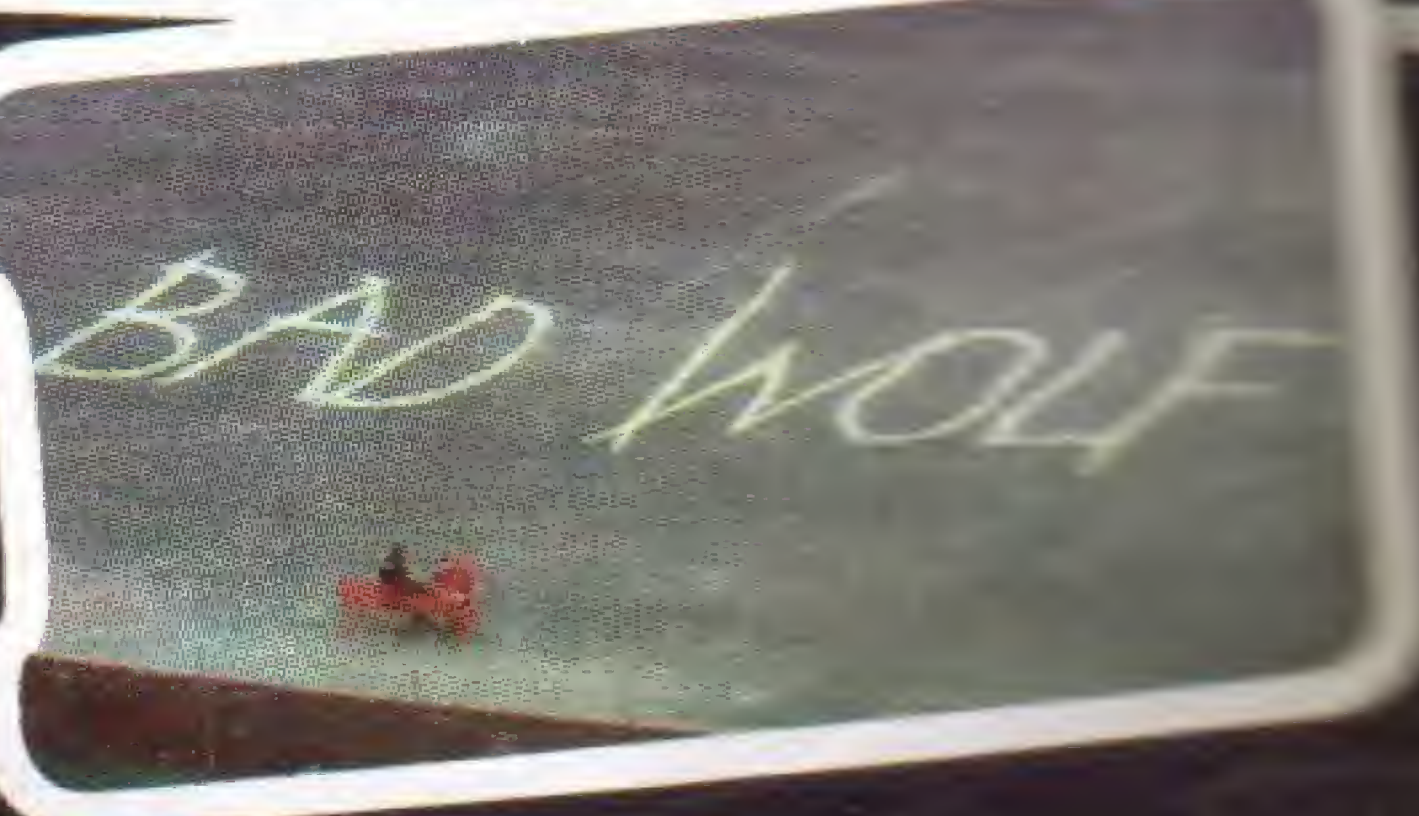

The Doctor sends Rose home

2 DELTA WAVE

The TARDIS takes them back to the Game Station, where the Doctor plans to create a Delta Wave to destroy the Dalek fleet. But he knows that the wave would be strong enough to kill everything in sight, so he tricks Rose into the TARDIS and sends her back in time to Jackie and Mickey.

IT'S A LINK BETWEEN ME AND THE DOCTOR!

RIGHT. YOU'VE ONLY GOT THIS UNTIL SIX O'CLOCK, SO GET ON WITH IT!

4 ROSE RETURNS

Mickey and Jackie want Rose to stay home where she is safe, but understand that she has to go. They help her to break open the TARDIS console and as she looks into it, the Time Vortex flows into her head and gives her the power to get back to the future.

Did you know?

The Doctor is known as the "Oncoming Storm" in Dalek legends.

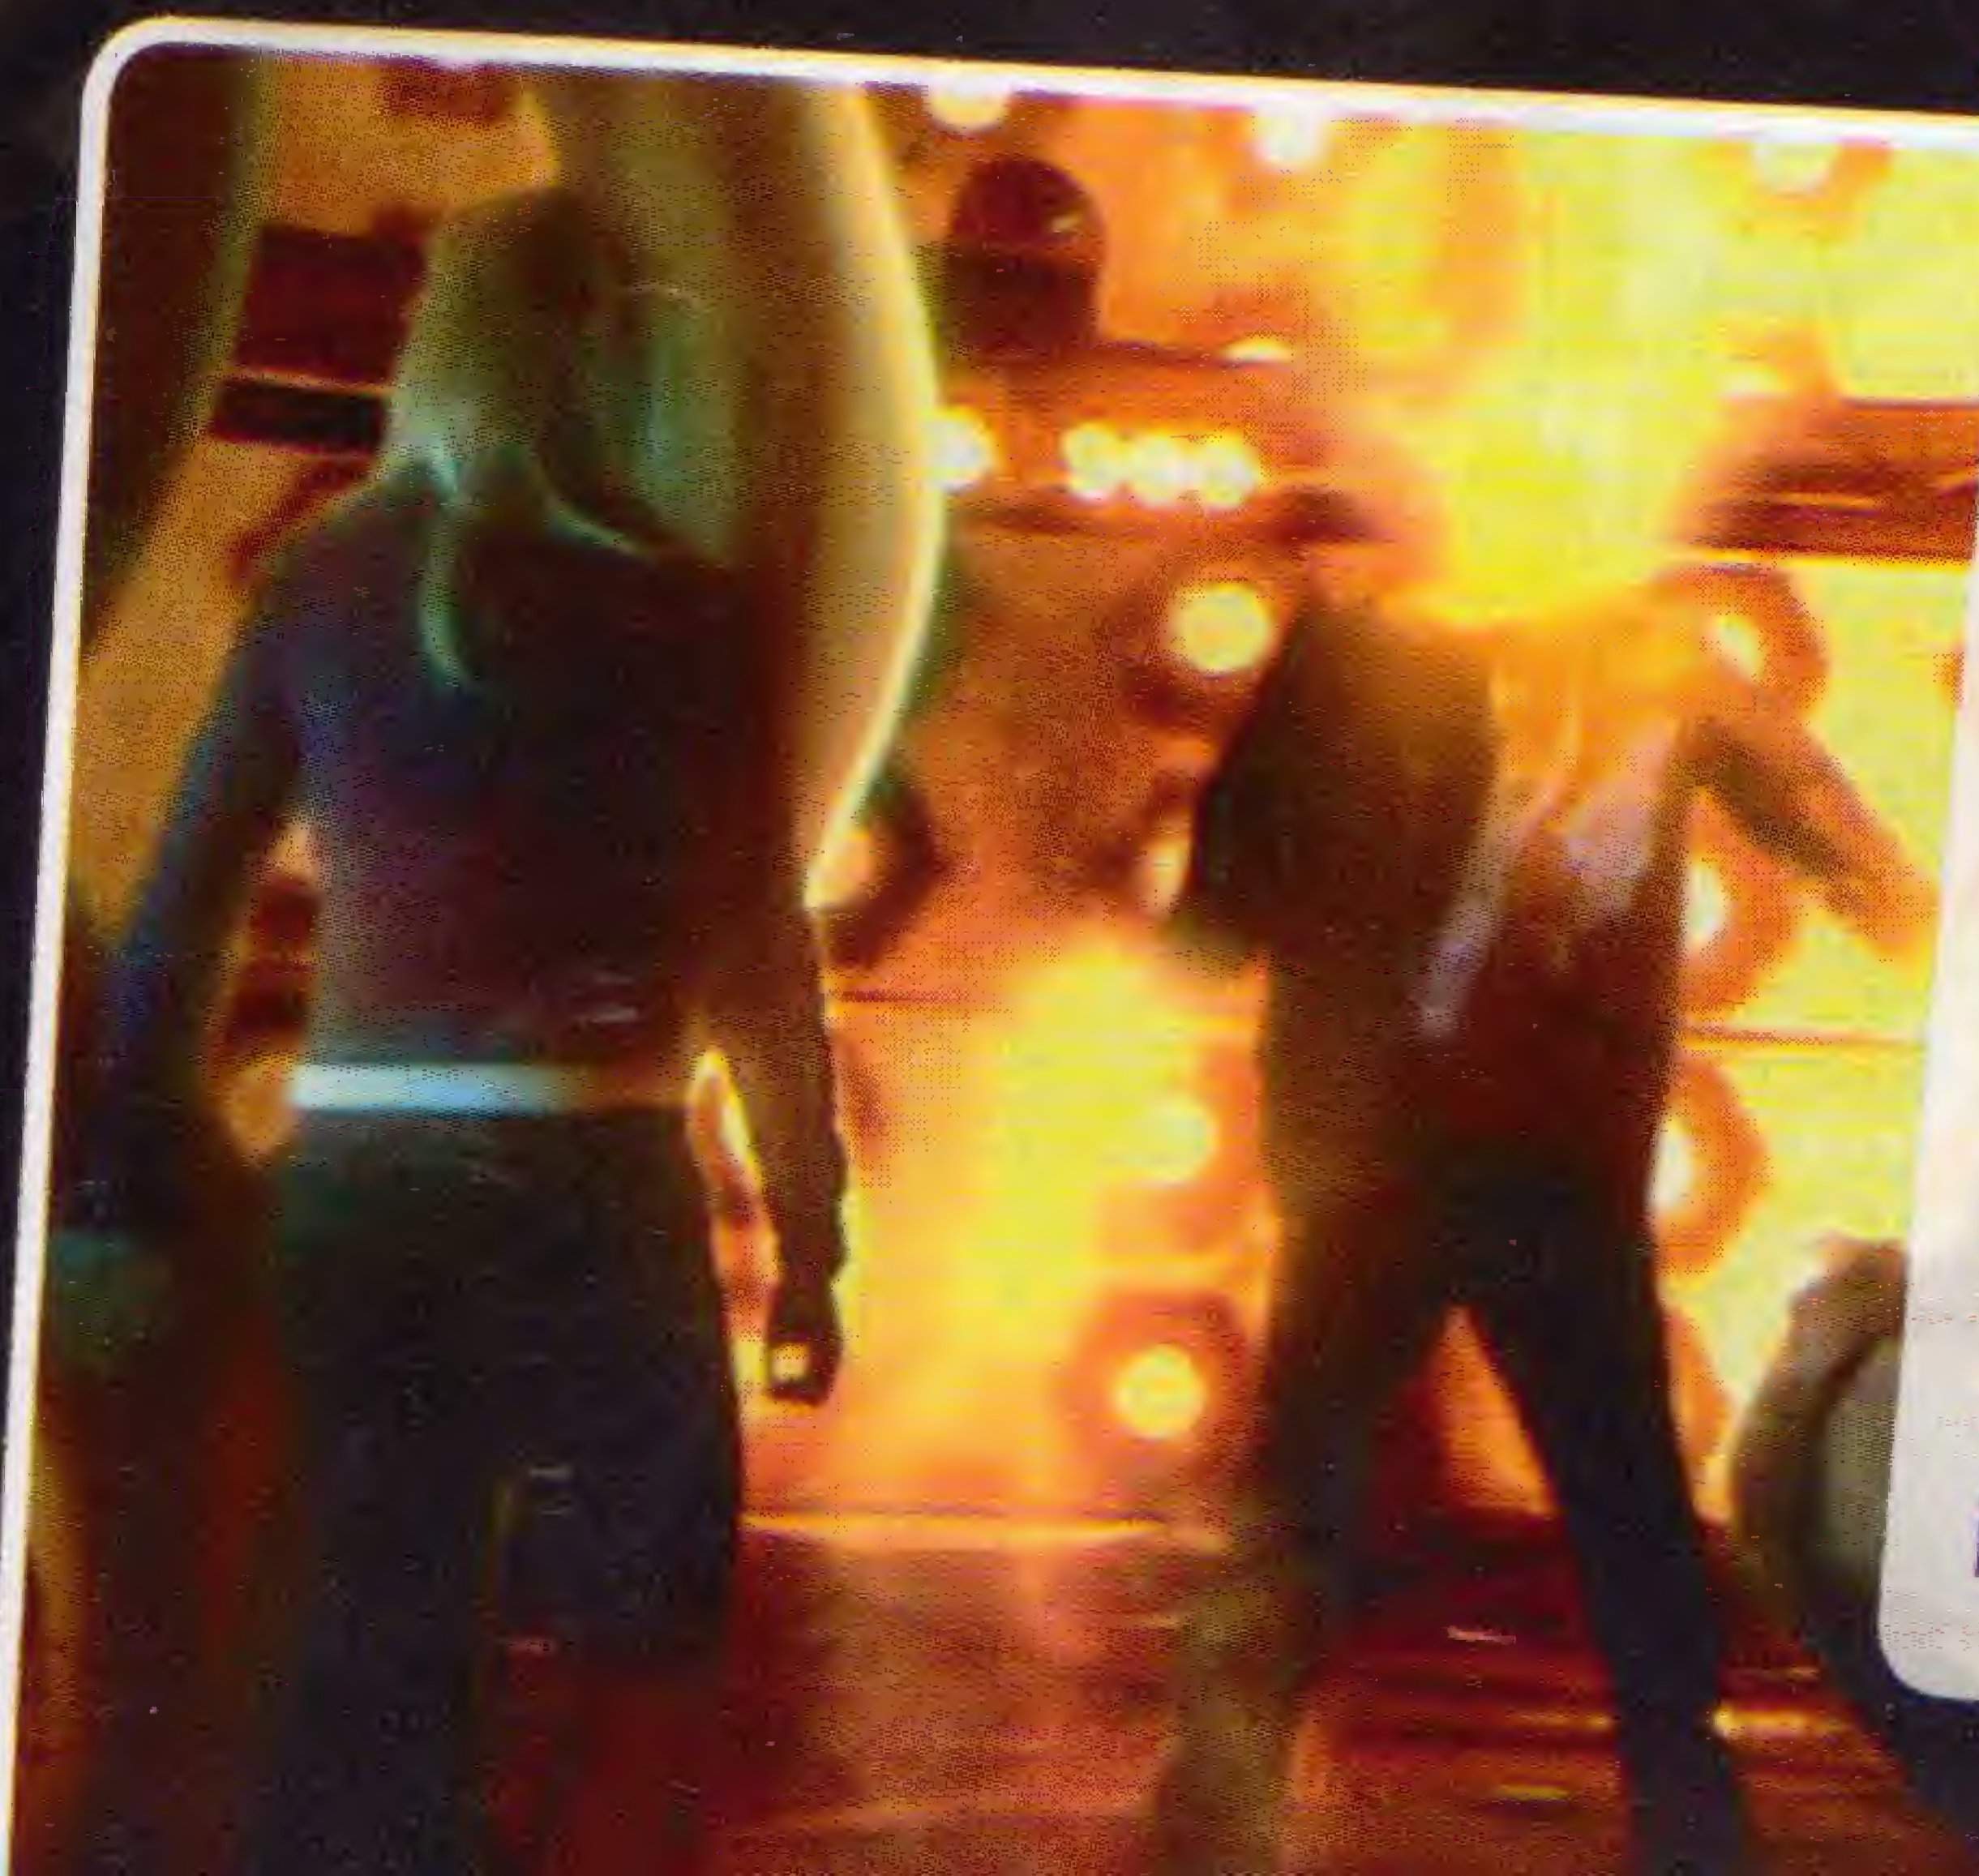

5 TIME VORTEX

The Daleks kill Captain Jack and are about to exterminate the Doctor. The Delta Wave is ready, but the Doctor can't bring himself to destroy Earth in order to rid the universe of the Daleks. Rose arrives and uses the power of the Vortex to destroy the Daleks and bring Jack back to life.

3 HOME AGAIN

Rose is devastated. How can she sit at home while the Doctor dies? She notices 'Bad Wolf' graffiti everywhere – it's those words again! She sees them as a sign that she has to fight to get back to help the Doctor.

6 ALL CHANGE...

The Vortex is killing Rose so the Doctor kisses her to take its power into himself. Back in the TARDIS, he explains that absorbing the Time Vortex is making him change. Suddenly, a bright light pours out of him, and the Doctor regenerates into a whole new man!

THE ONCOMING STORM

Behind-the-scenes secrets from the Doctor Who Confidential team

YOU DON'T
GET RID OF ME
THAT EASILY!

DUMMY SCRIPT

To keep the final scene secret, a dummy script was issued in which Rose was fatally wounded by swallowing the Time Vortex. They even recorded a fake scene of Rose dying to keep everyone in the dark.

RUST RISK

The slimy creature inside the Emperor Dalek is the same one that appeared in *Dalek*. The crew were worried when they realised it was going to be dropped into a water tank. "Being made of silicon, the creature wouldn't be harmed, but its animatronics would rust very quickly and seize up."

GOODBYE NO 9

Christopher Eccleston loved being the 9th Doctor: "Doctor Who was my life for eight months. I loved playing him, and taking part in the basic essence of the series, which is it's a short life – seize it, and live it as fully as you can."

AN EARLY
DESIGN
FOR THE
EMPEROR
DALEK

Putting the finishing touches to the Emperor Dalek model

Extra info

Billie Piper wasn't there when they filmed the scene where the 10th Doctor appears. David Tennant had to talk to a piece of tape stuck to the TARDIS and pretend it was Rose!

DOCTOR WHO
CONFIDENTIAL
EXTRA

JUST JACKIE?

There was more than one person behind the wheel of Jackie's yellow truck. Camille Coduri, the actress who plays Jackie Tyler, didn't have an HGV driving licence so she had to sit on the lap of a driver dressed entirely in black with a balaclava on his head! Luckily for the driver, Camille isn't too heavy!

EMPEROR DESIGN

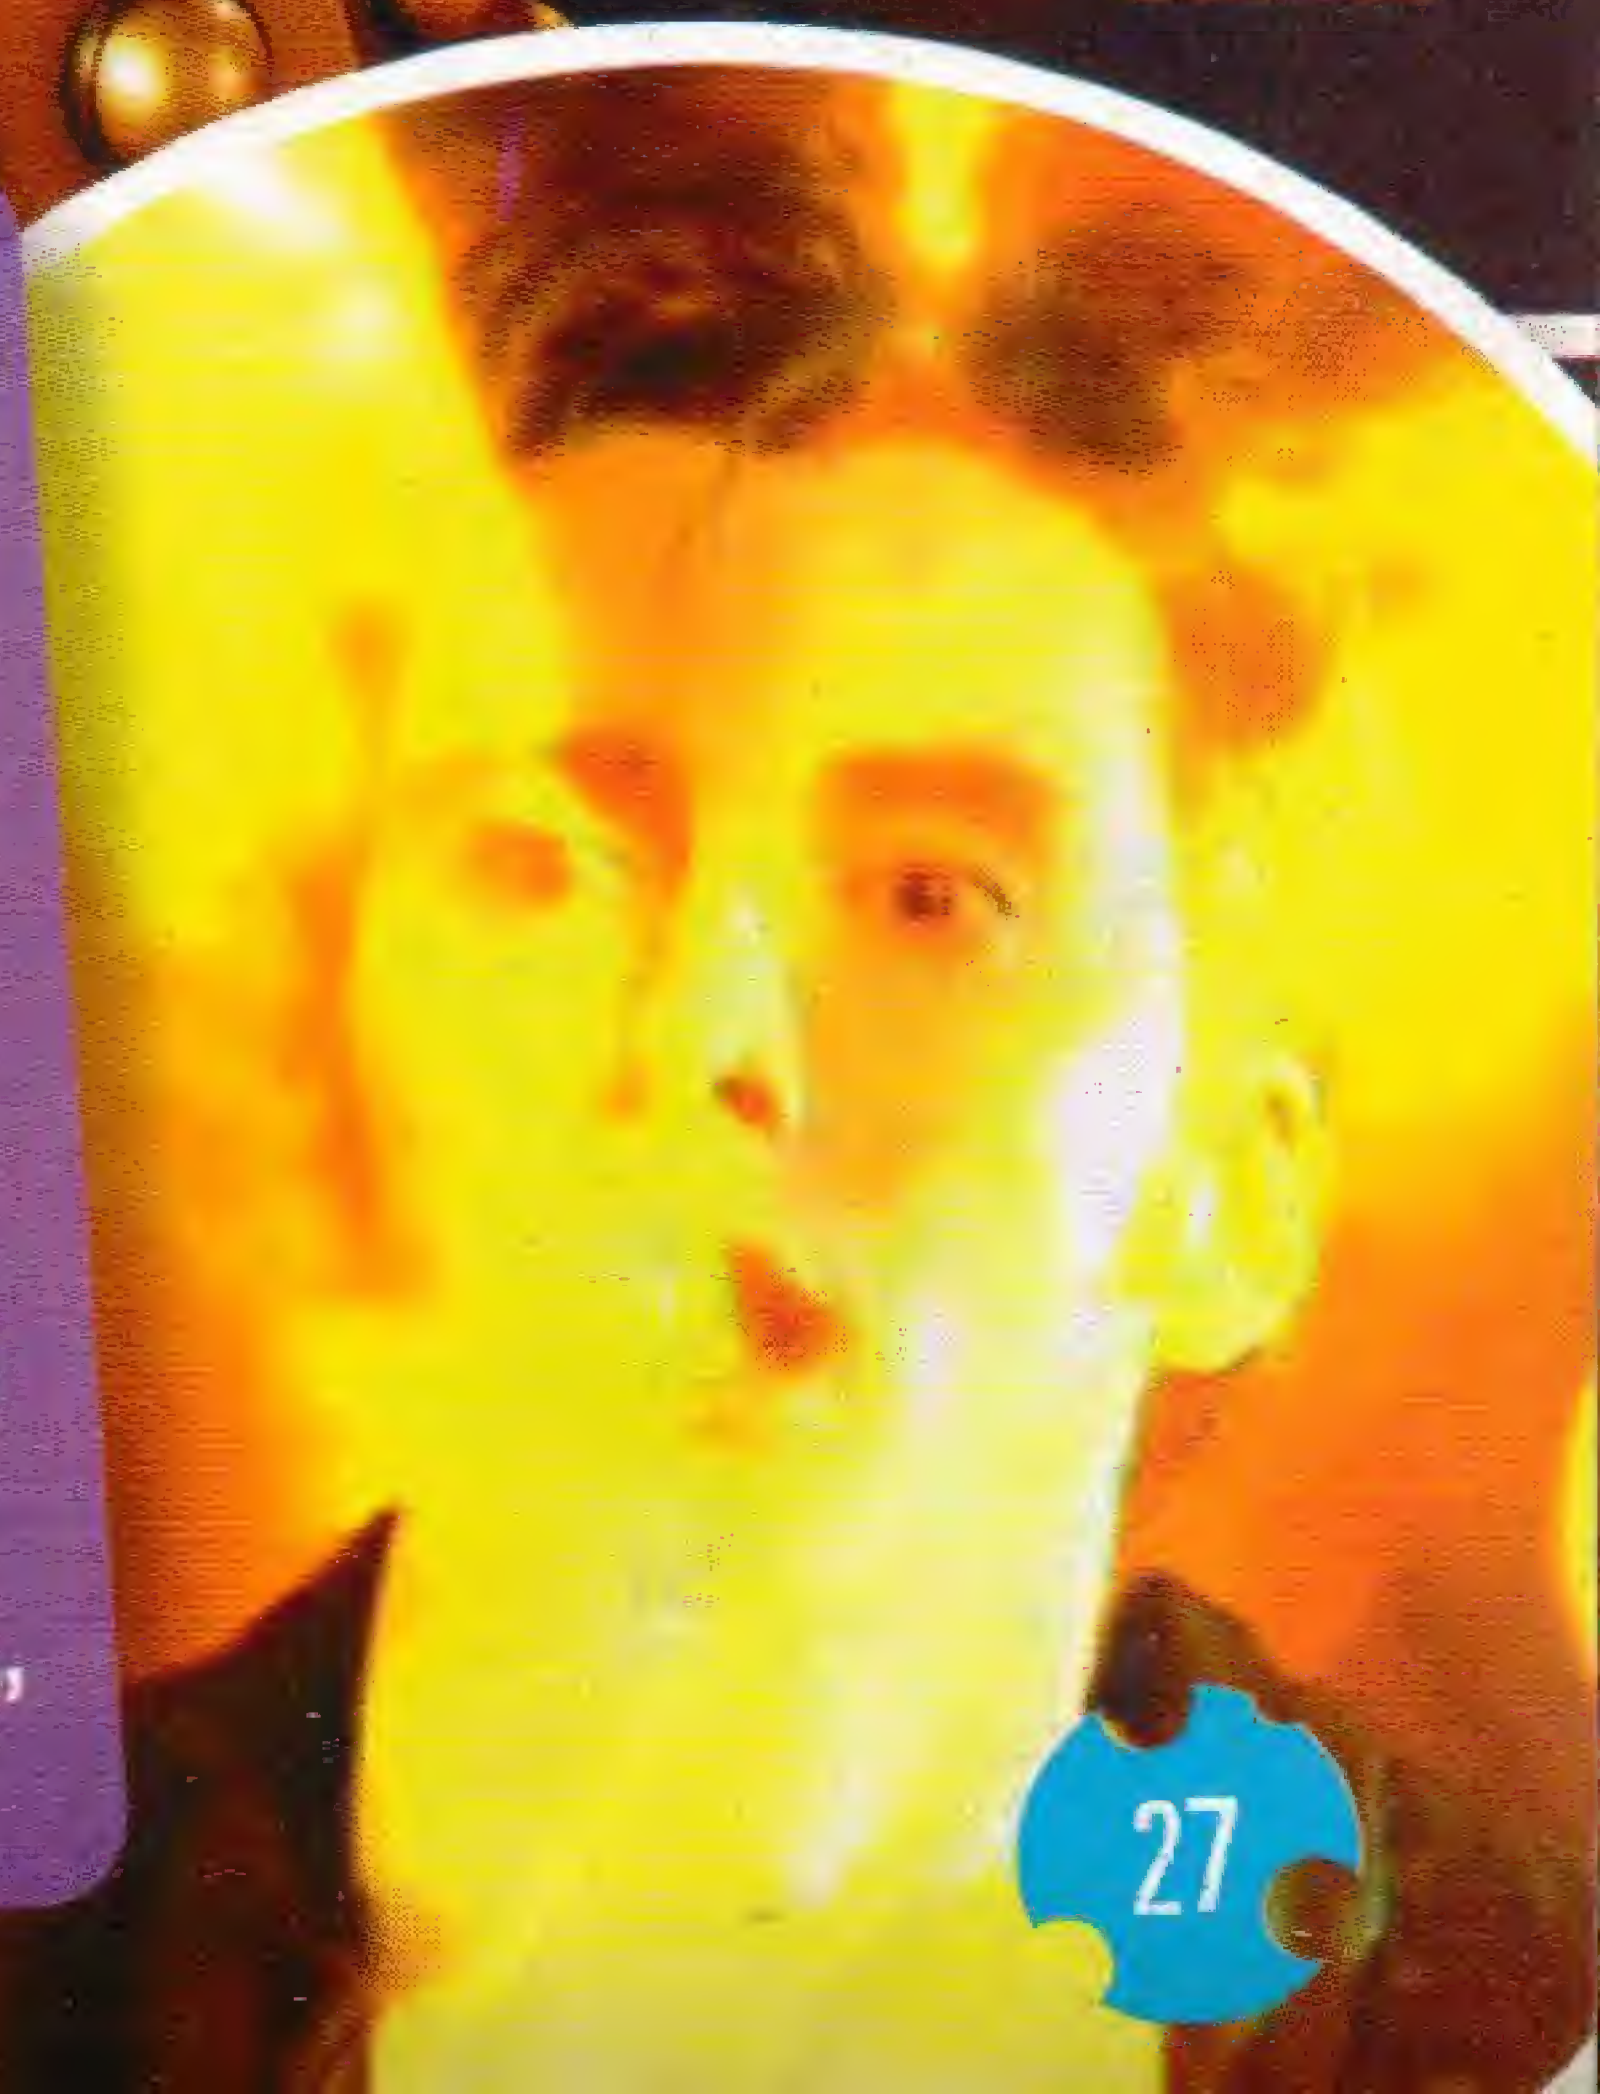

The Emperor Dalek's design was based on an old Roman defence tactic called the "turtle"! When the Roman army were under attack they tucked their shields around them in a circular formation. The shields on the Emperor Dalek move in a similar way.

A Dalek takes a break between scenes

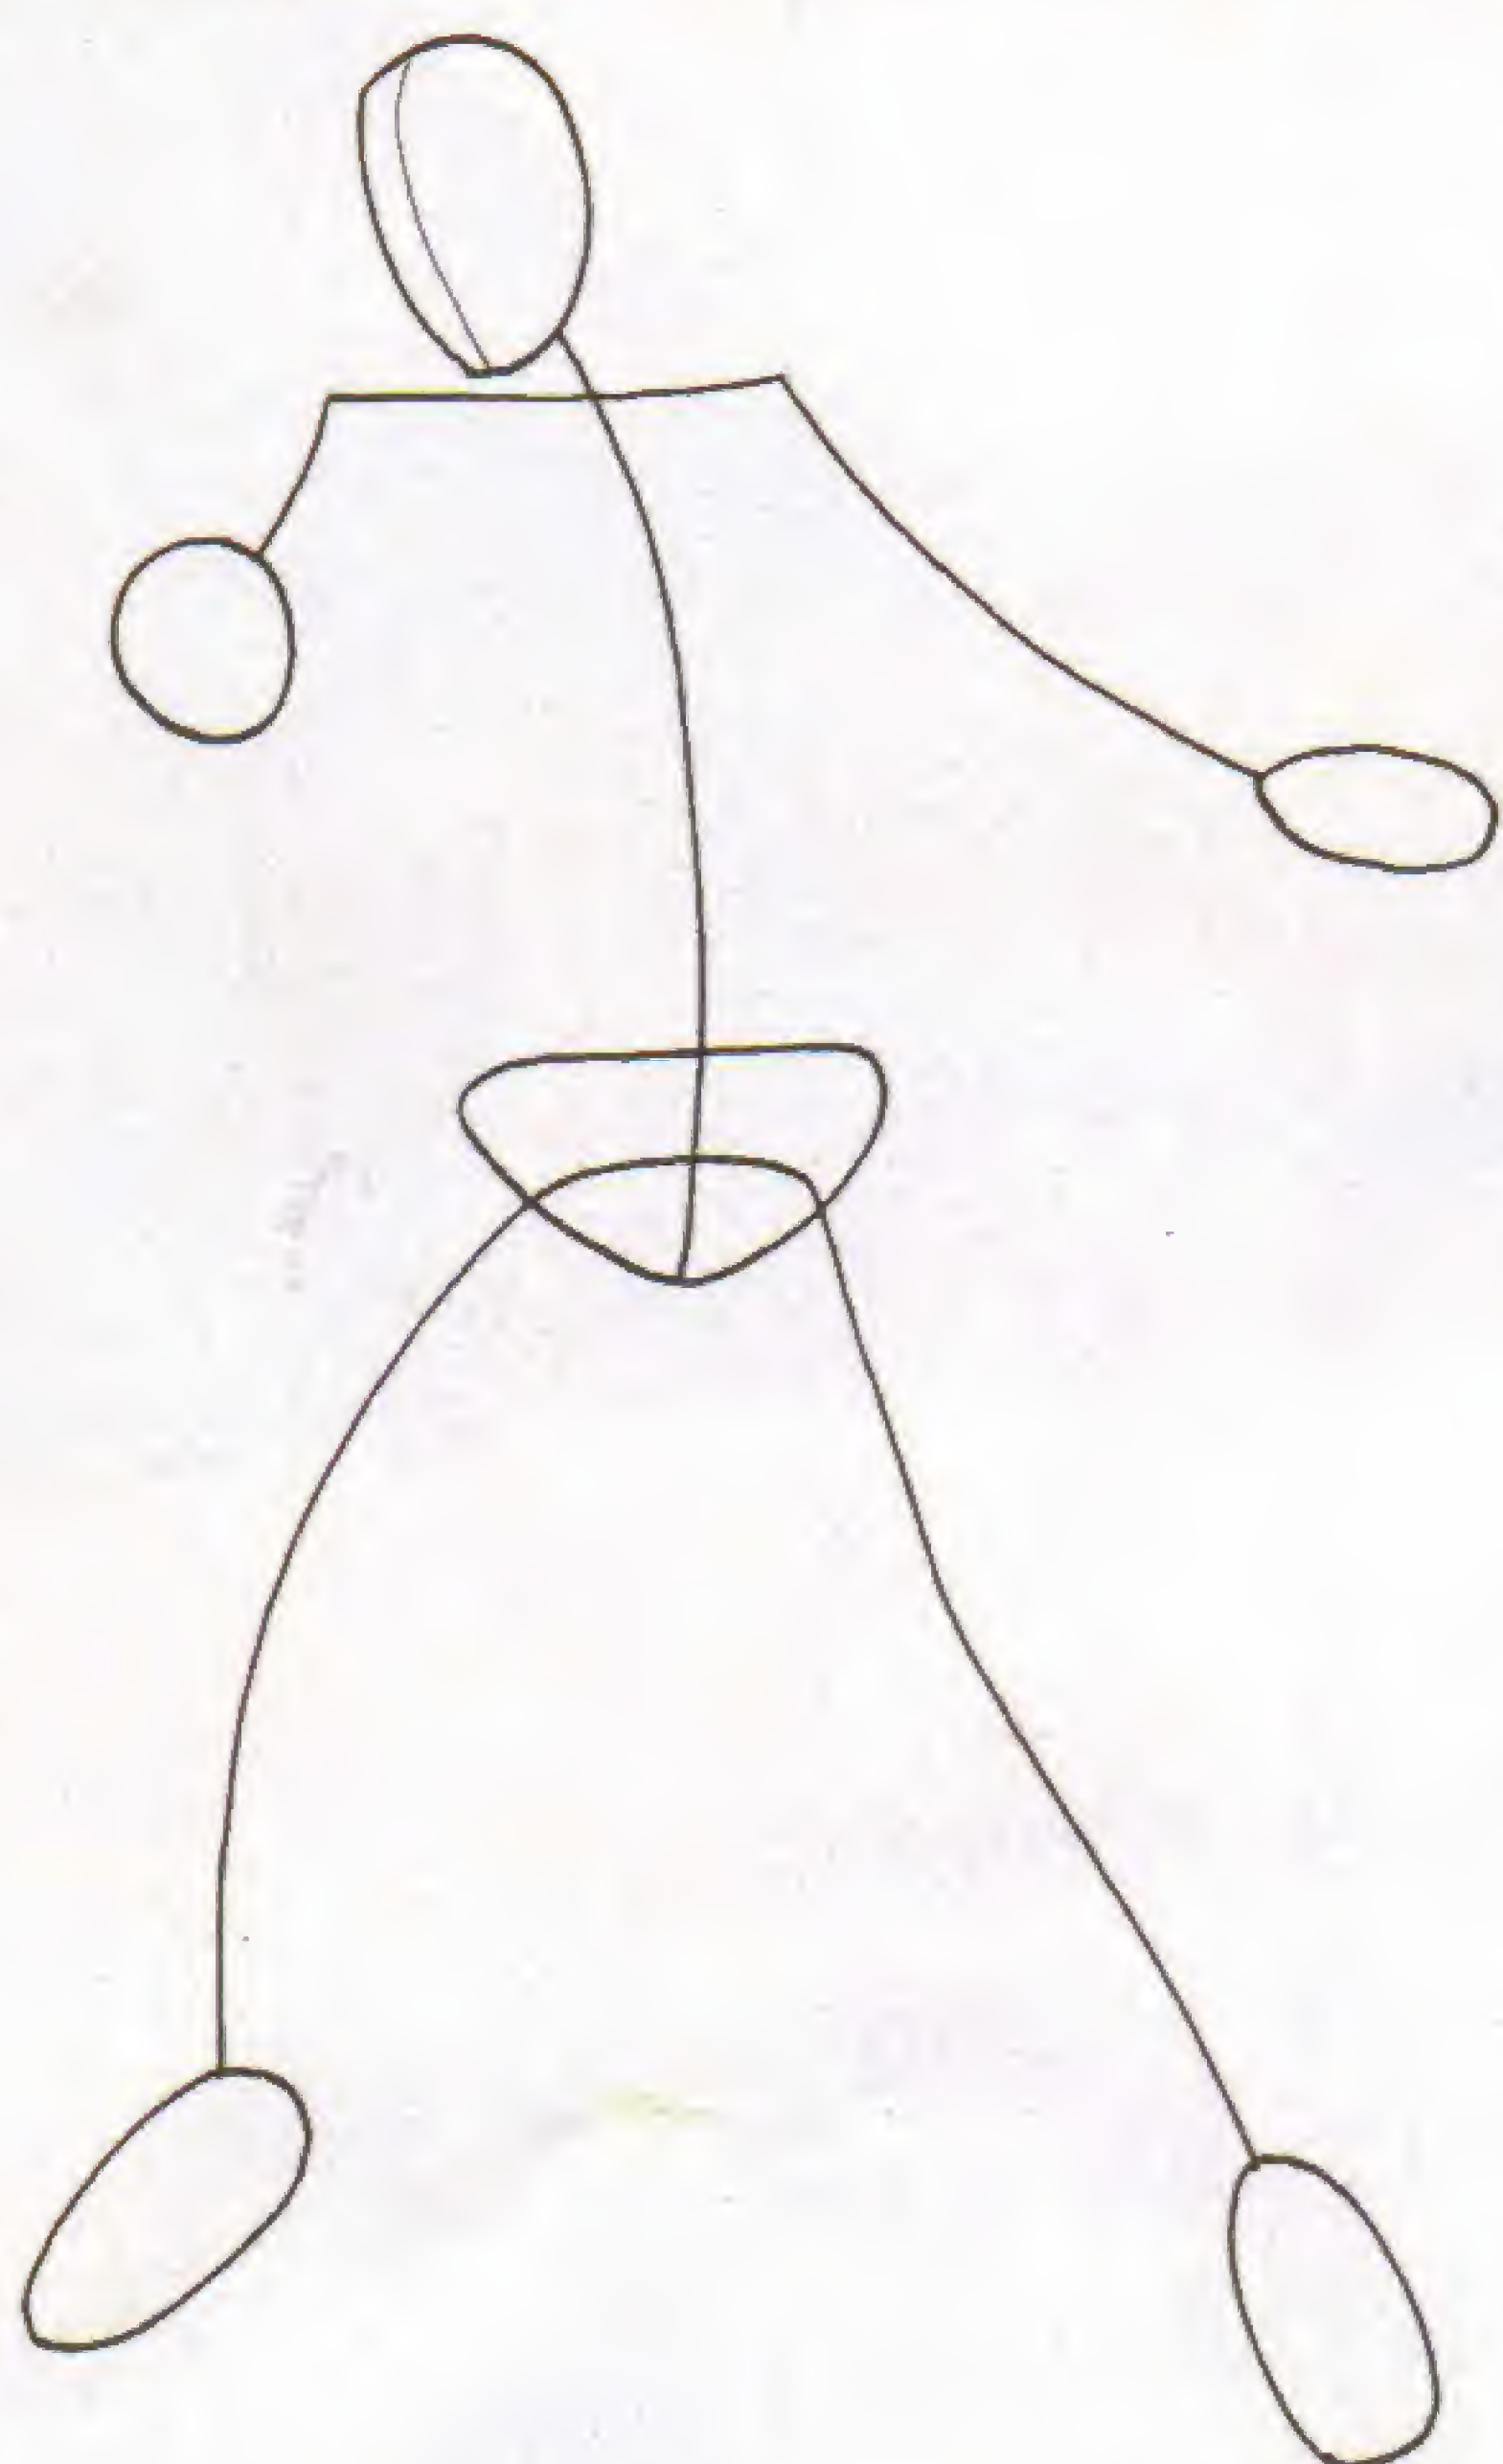

NEW DOCTOR

Doctor number ten David Tennant remembers his first scene: "It was odd, although, at least I had a couple of lines. Some Doctors have been introduced just lying on the floor and appearing, blinking or sitting up. At least I had a tiny bit of a scene to do."

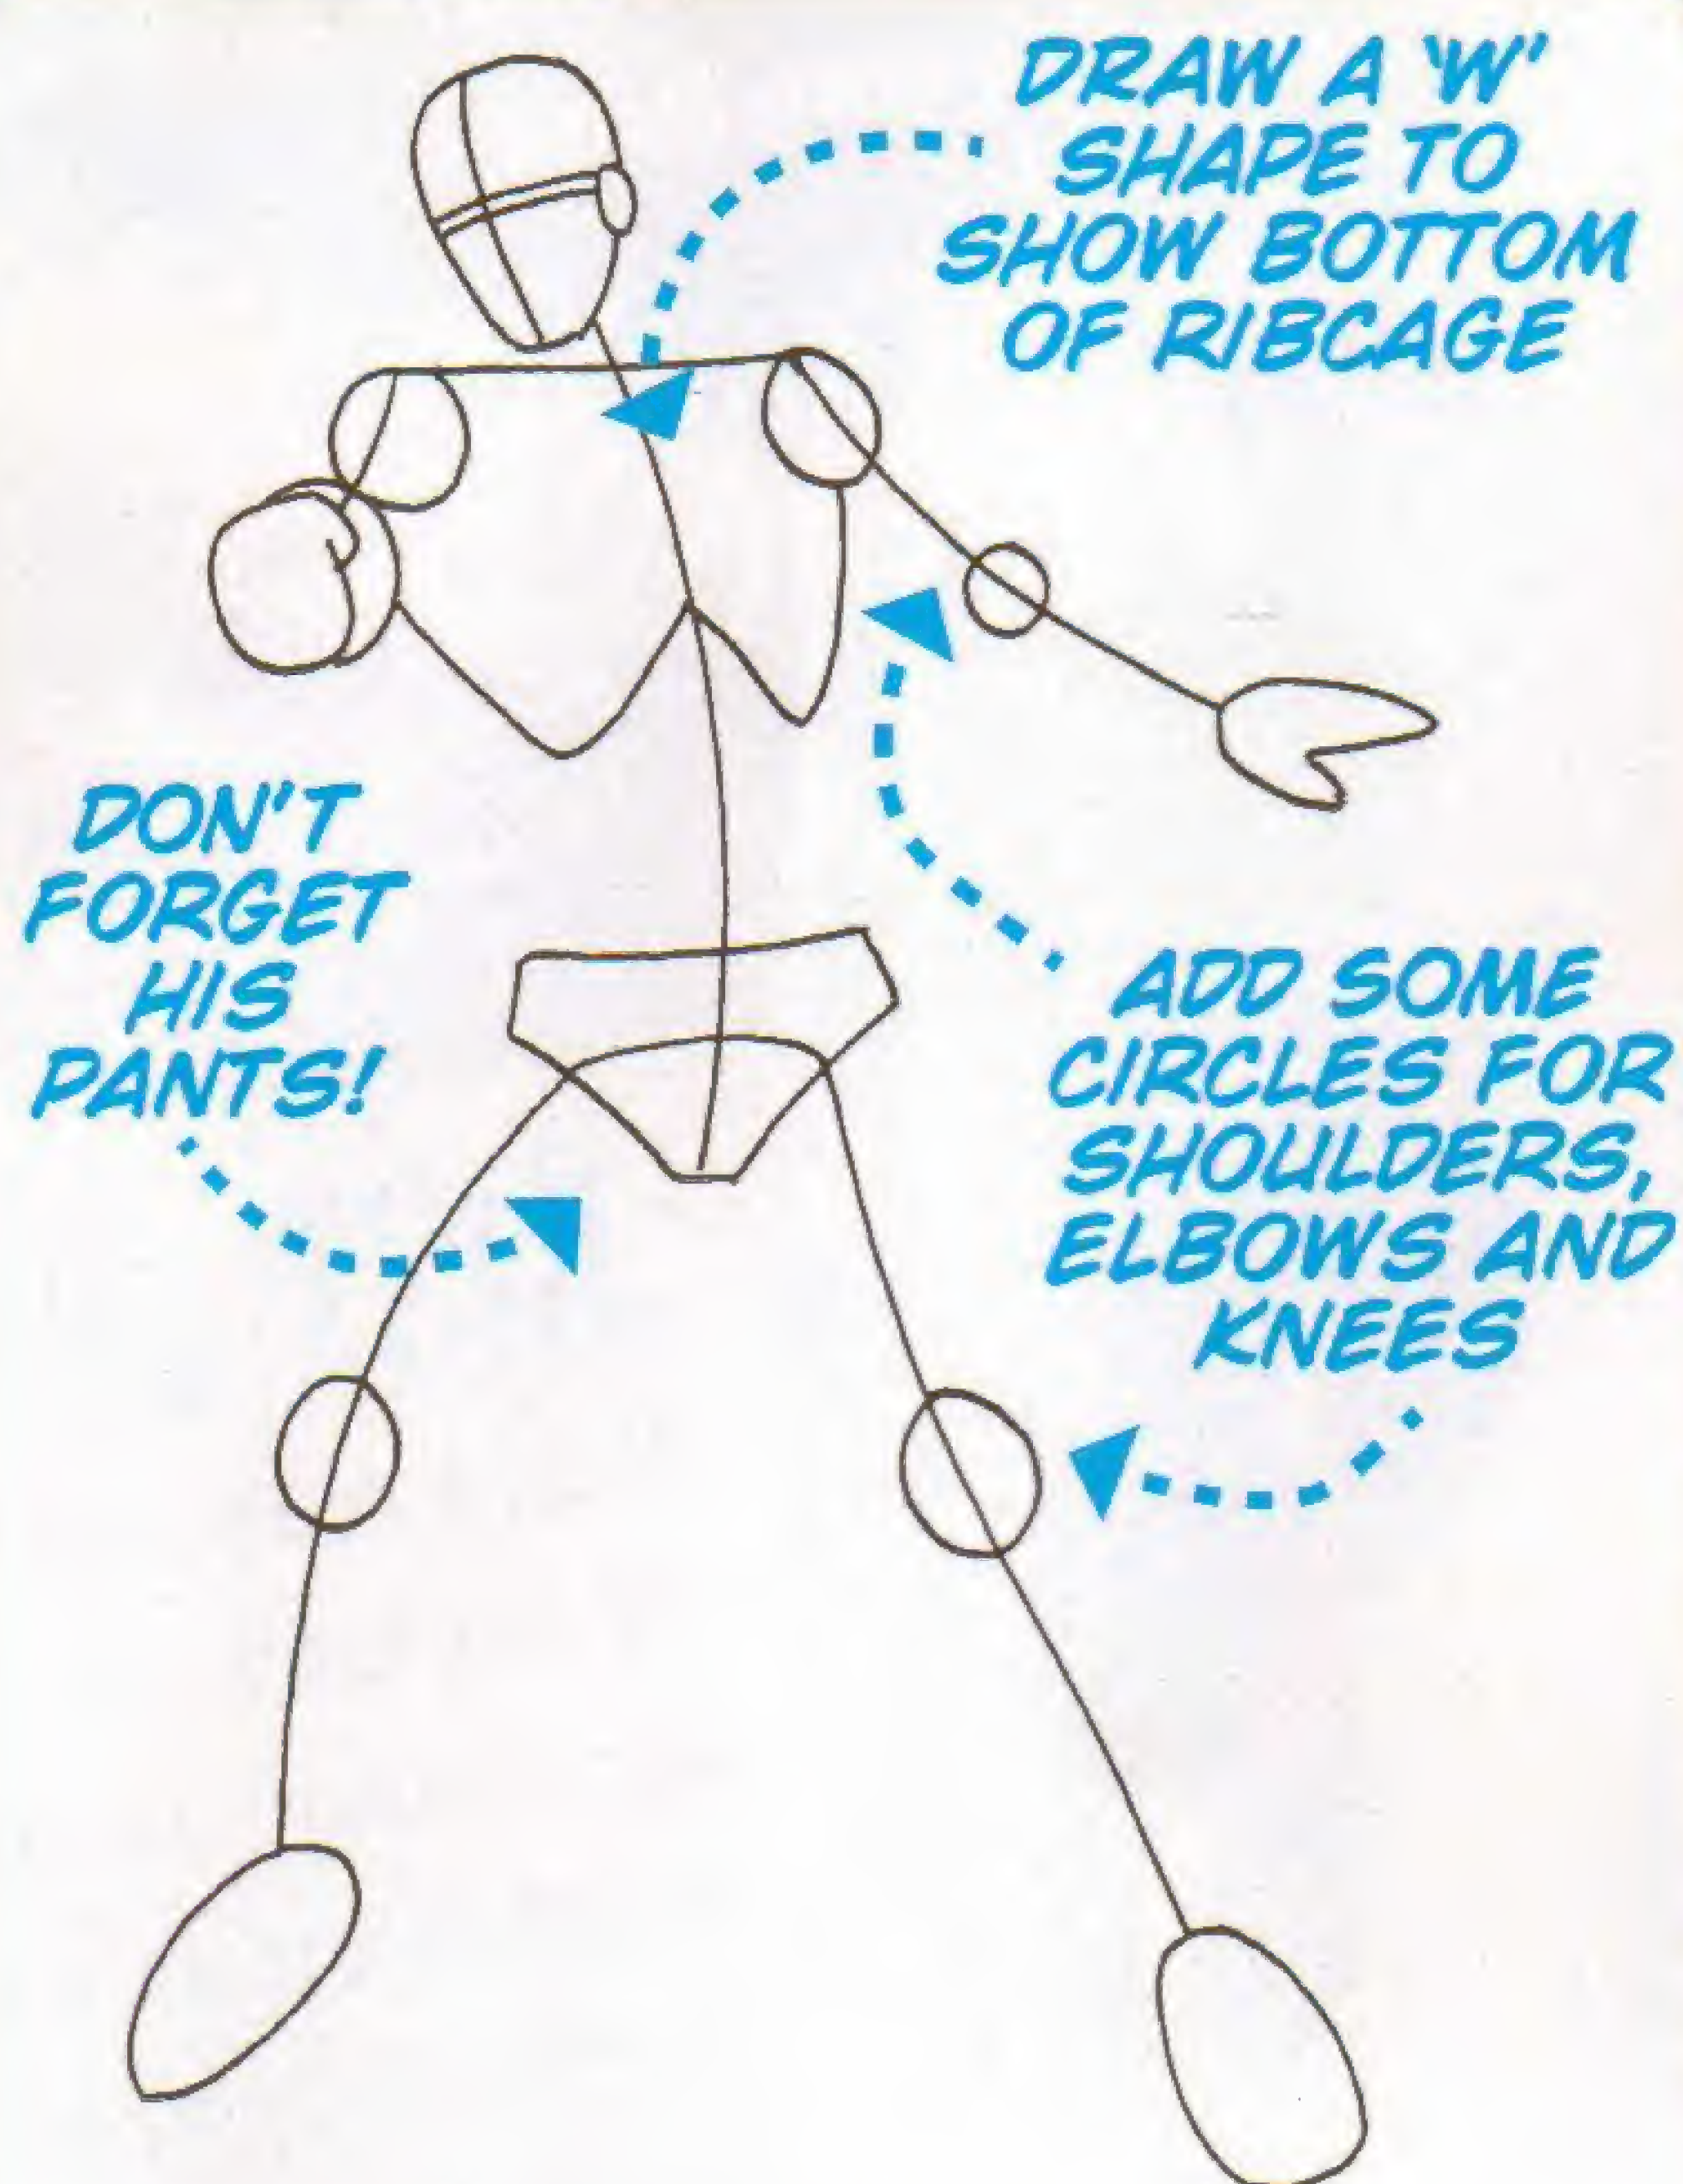

DRAW IT!

THE DO

1 With your pencil, draw a matchstick man like this to show the position of the Doctor on the page.

2 Now pencil in two lines across the middle of the head (the eye line) and an oval at the side (the ear).

3 Draw some rough shapes for the eyes, nose and mouth. Then fill out the body, arms and legs like this.

4 Now that you have a good structure, you can add the detail of the face, hair and clothes to the Doctor..

5 When you've done the detail, go over your pencil lines with a fine-point black felt pen. Rub out the pencil lines.

6 Finally, colour in your image like this to bring the whole thing to life! And here's a Doctor ready for adventures!

MONSTER A to Z

O
IS FOR

OOD

**FIRST
STARRED IN:**
*The Impossible
Planet* (2006)

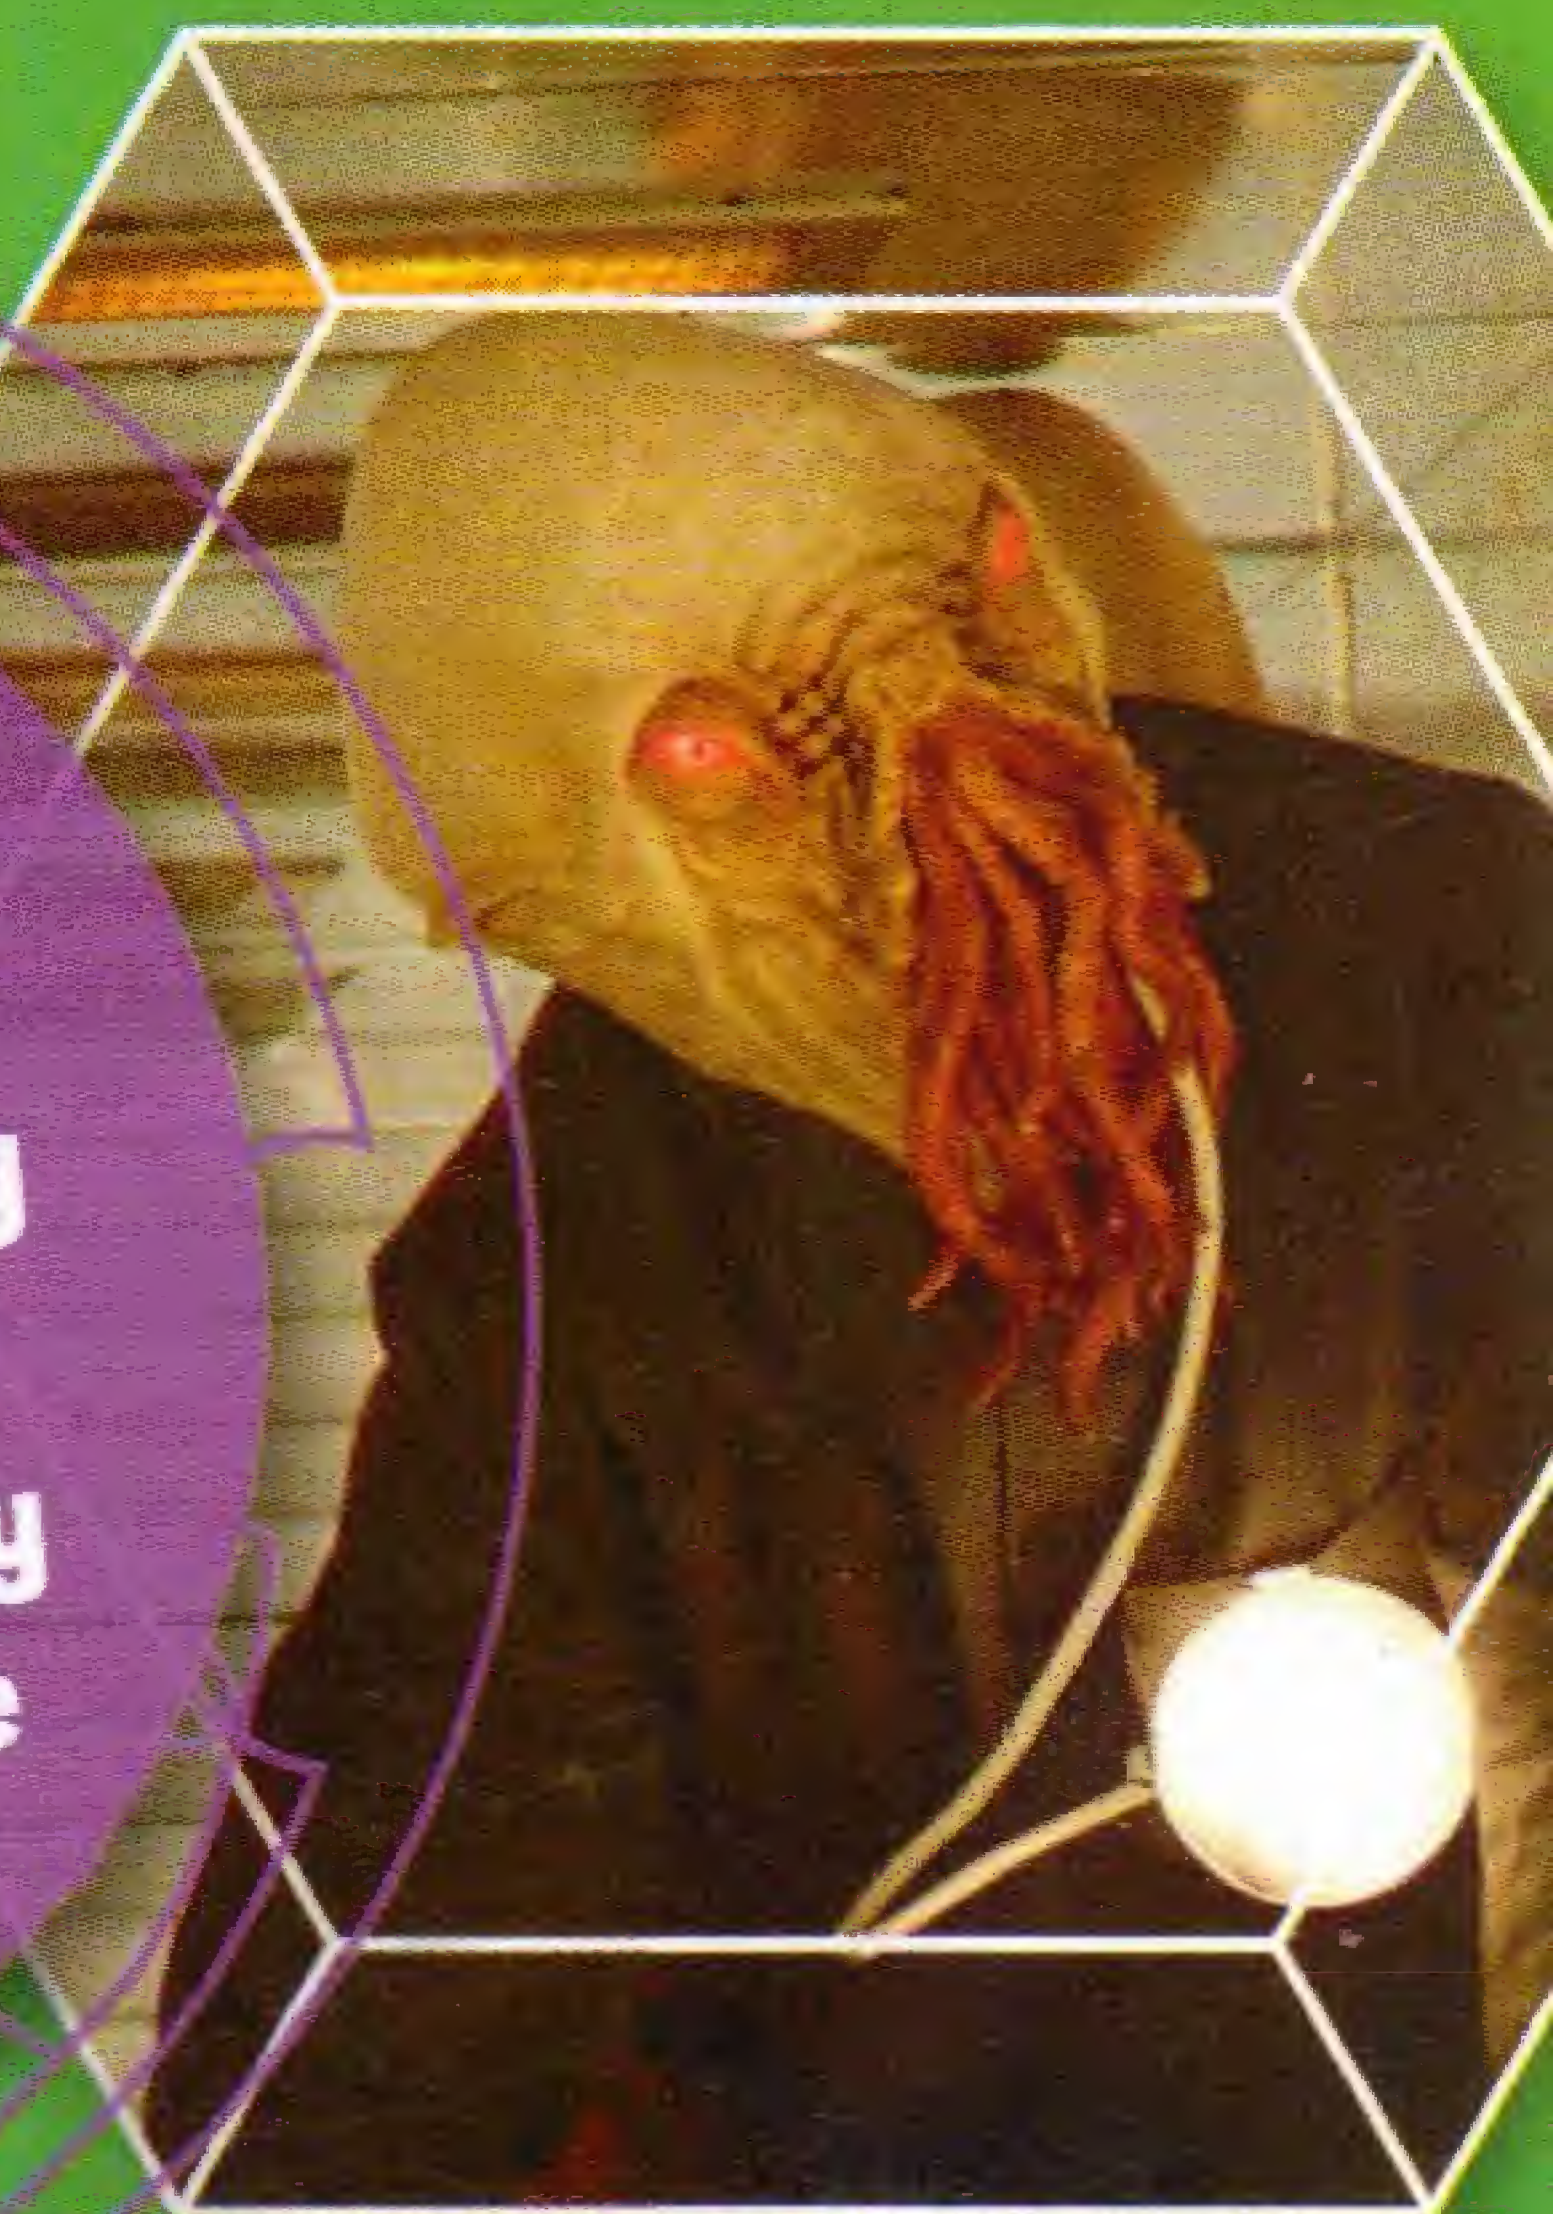

MONSTER STORY:

The Ood are a peaceful race and they need orders to actually do anything. If they don't they will die. And when the Beast took them over, all they wanted to do was to kill every human they met on Sanctuary Base! Help!

LOOKS LIKE: They have egg-shaped heads and where their mouths should be, they have fronds, which look like big red jelly snakes! When they're possessed by the Beast their eyes glow red and they're not so friendly any more.

FOE FACT!

There were ten Ood masks made – but only one that could blink. Clever camera trickery made you think there were lots more.

Most likely to: Be your servant
Least likely to: Disobey orders

TARDIS INBOY

The page that's all about YOU and Who!

WIN!

Be the master of time with the Daleks – there's a fantastic watch and clock for whoever sends the best letter or picture each issue.

www.wescolimited.com

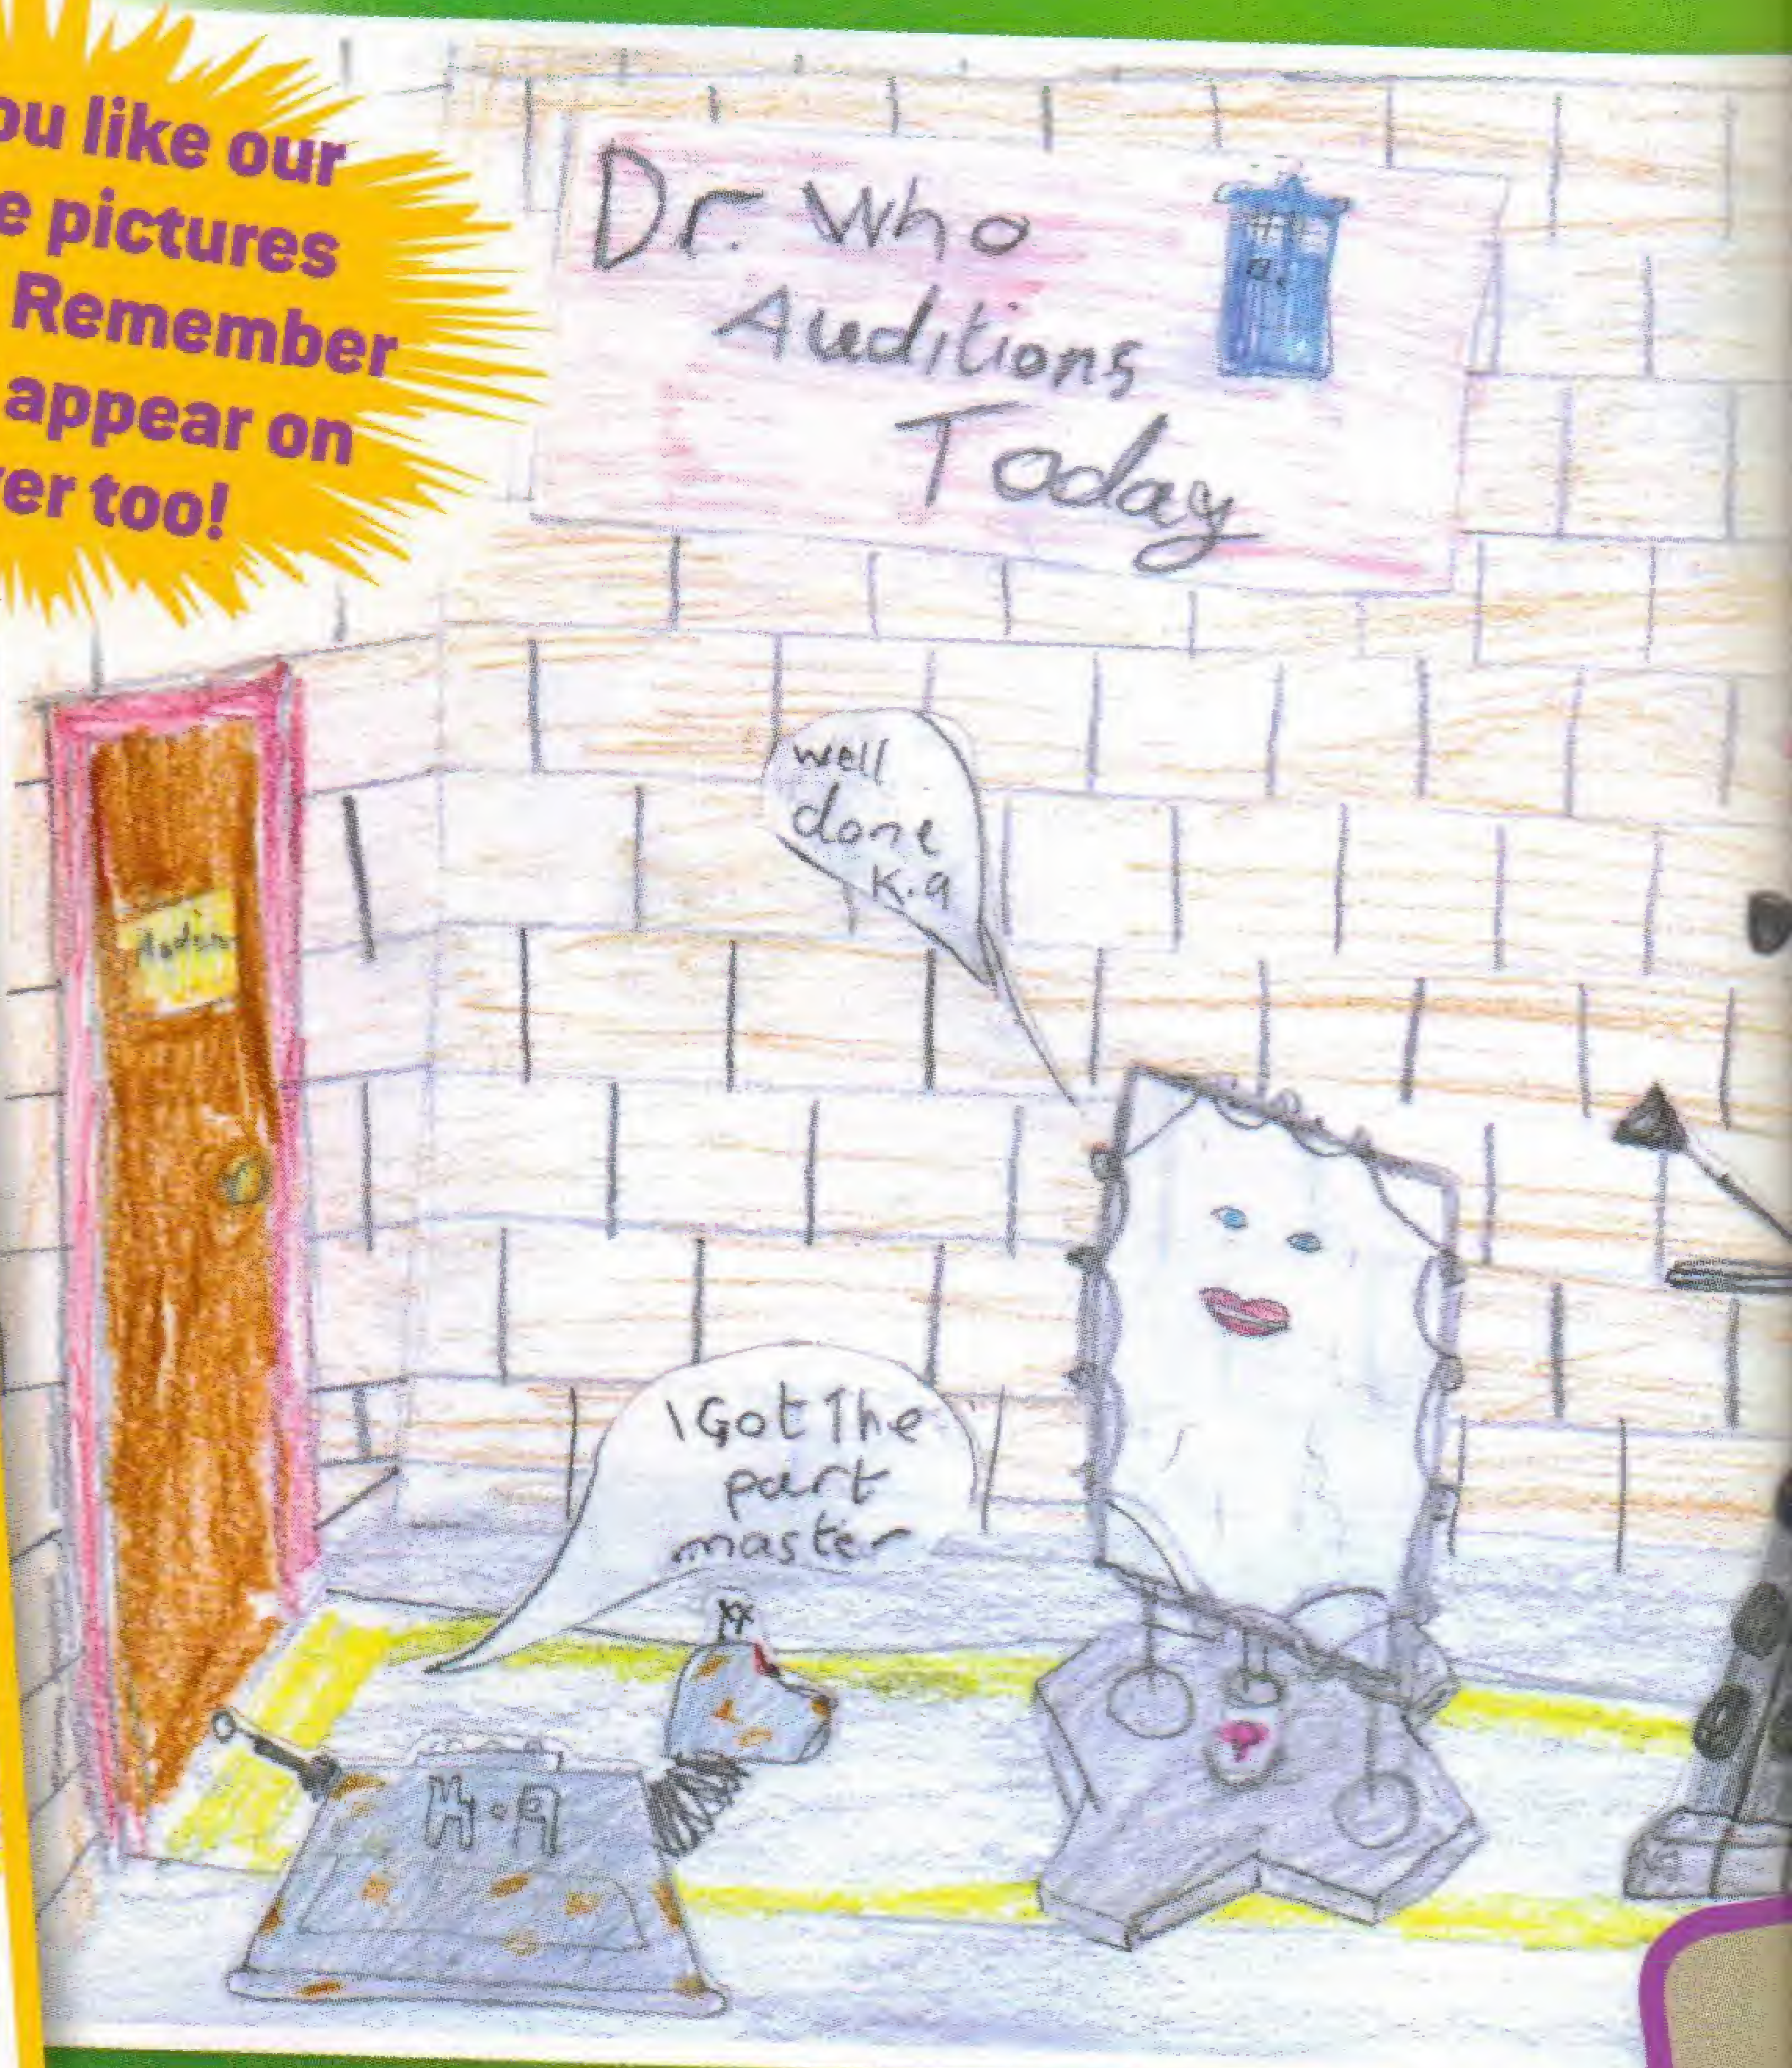

Hope you like our favourite pictures this issue! Remember you could appear on the cover too!

Michael Childs, aged 12, loves the Abzorbaloff!

Argh! Look at this lot! **George Wyatt**, aged 10, drew us an army of Daleks. Thanks George!

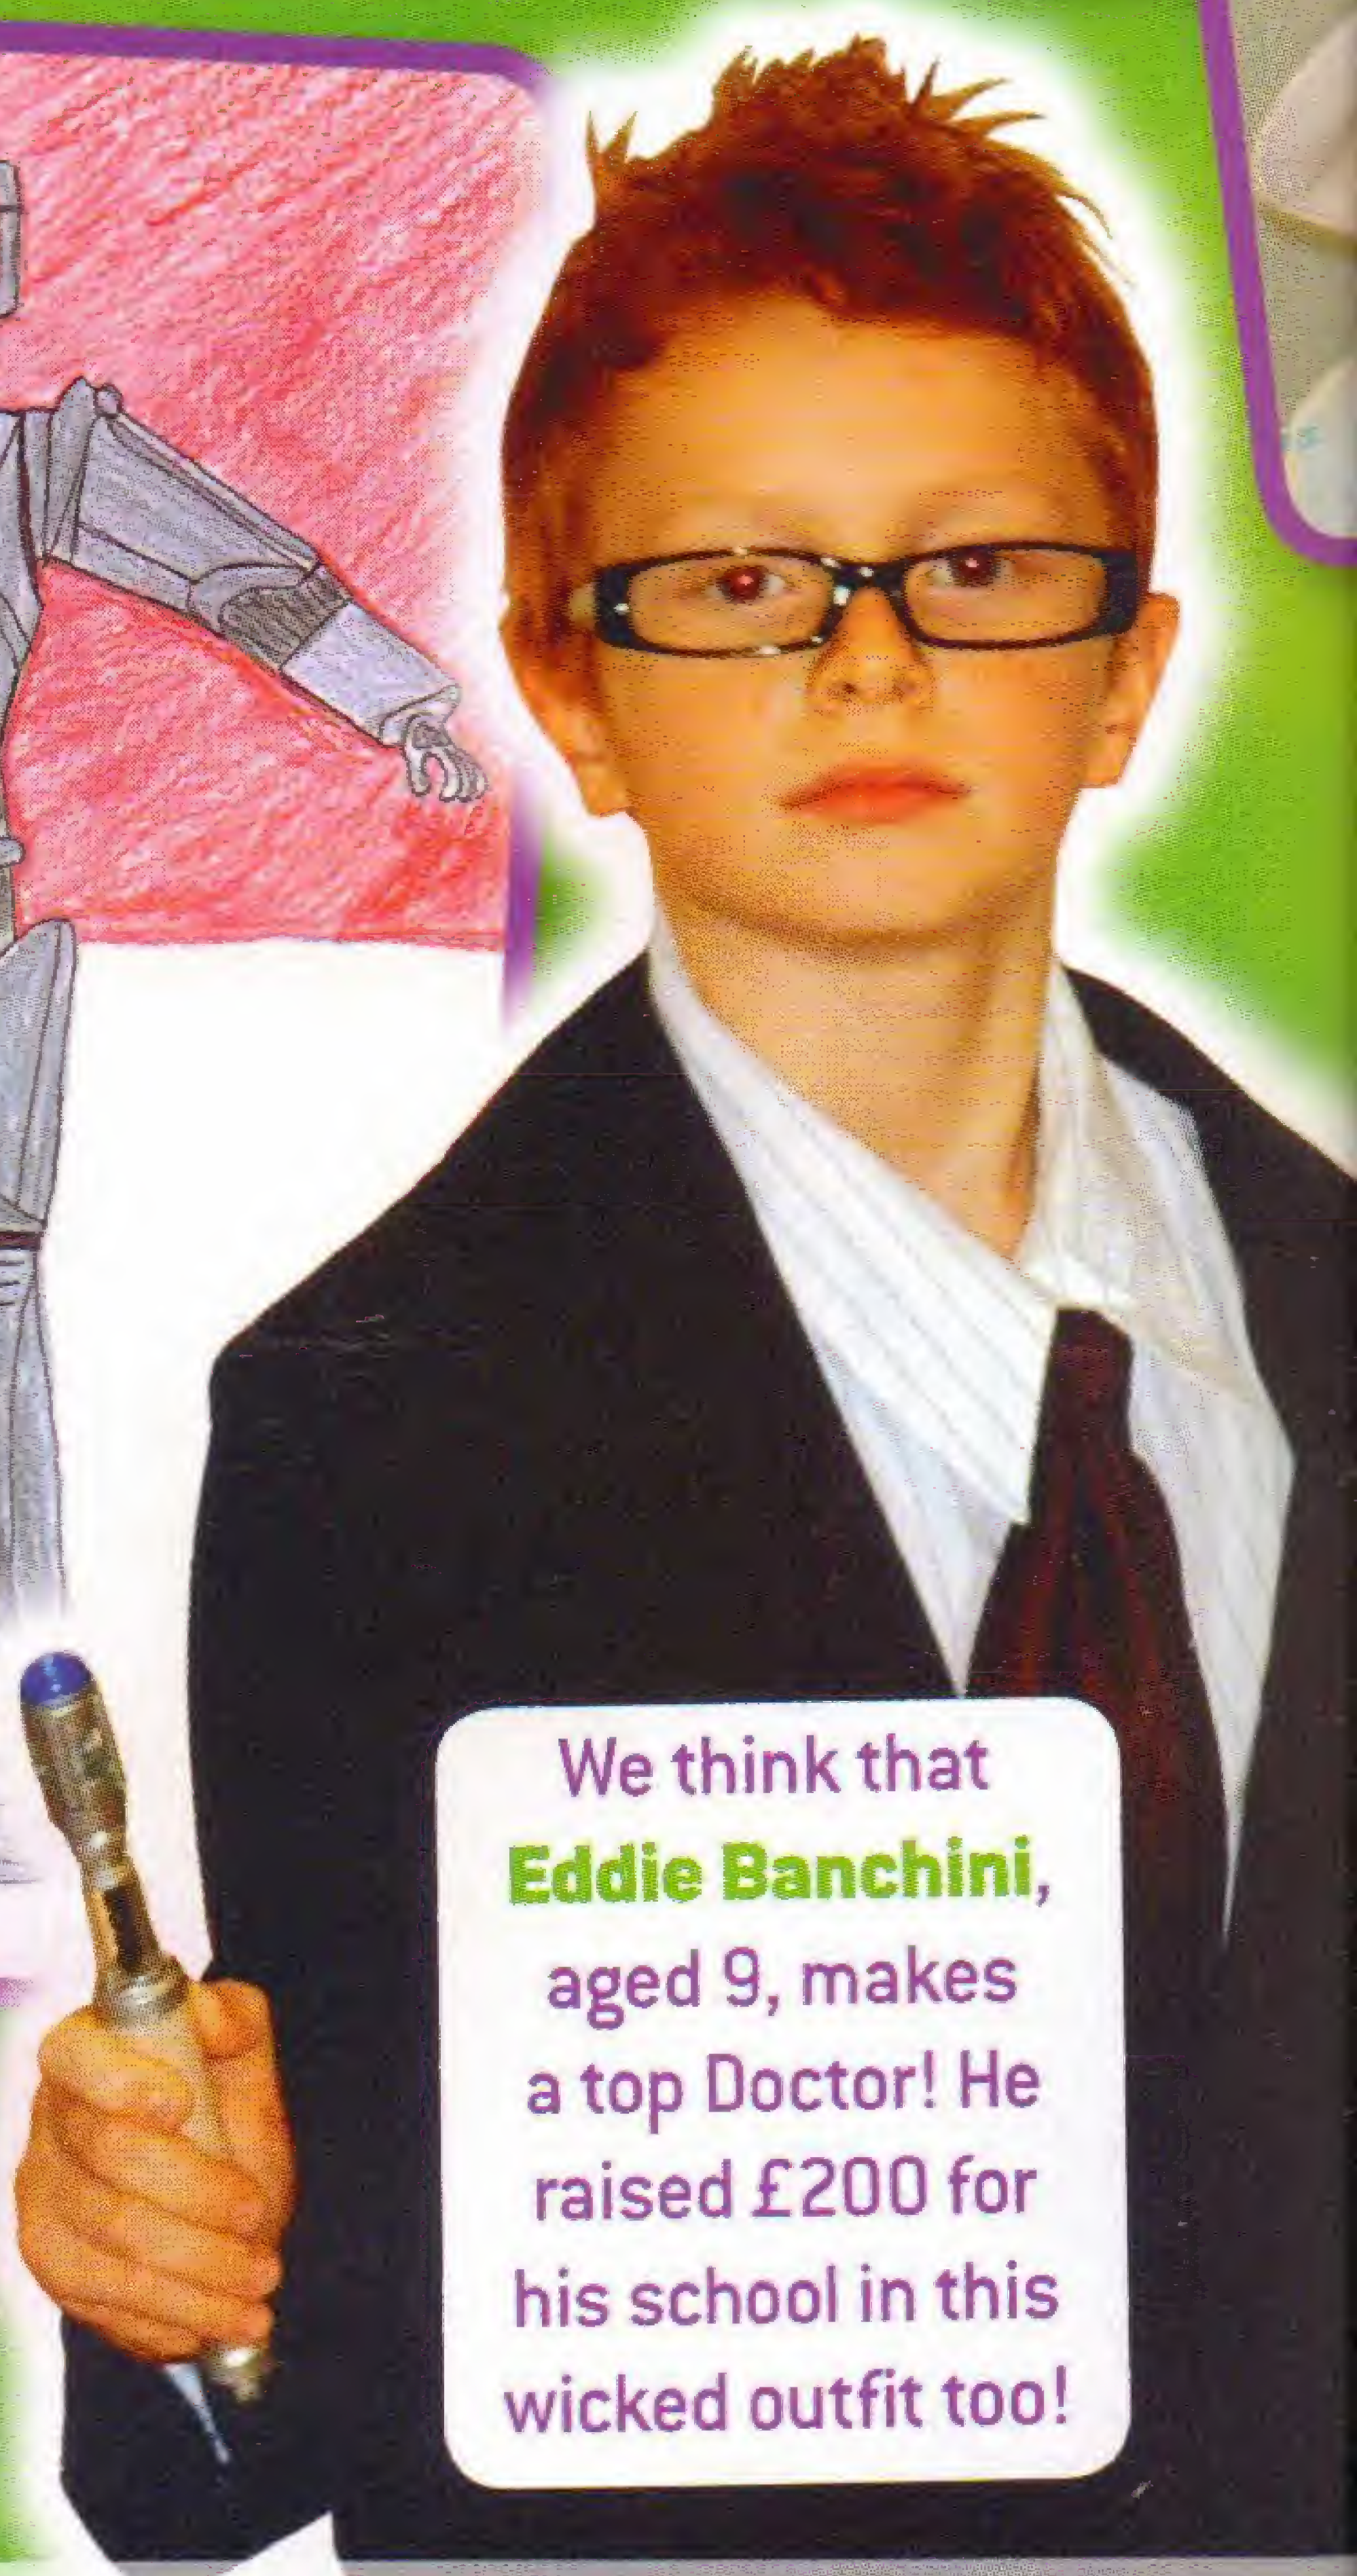

Kate, aged 9, her brother **Michael**, aged 6, and sister **Leah**, aged 3, made this amazing K-9!

STAR PIC!

We hid behind our desks when this scary Cyber drawing came in from **Benjamin White**, aged 11½!

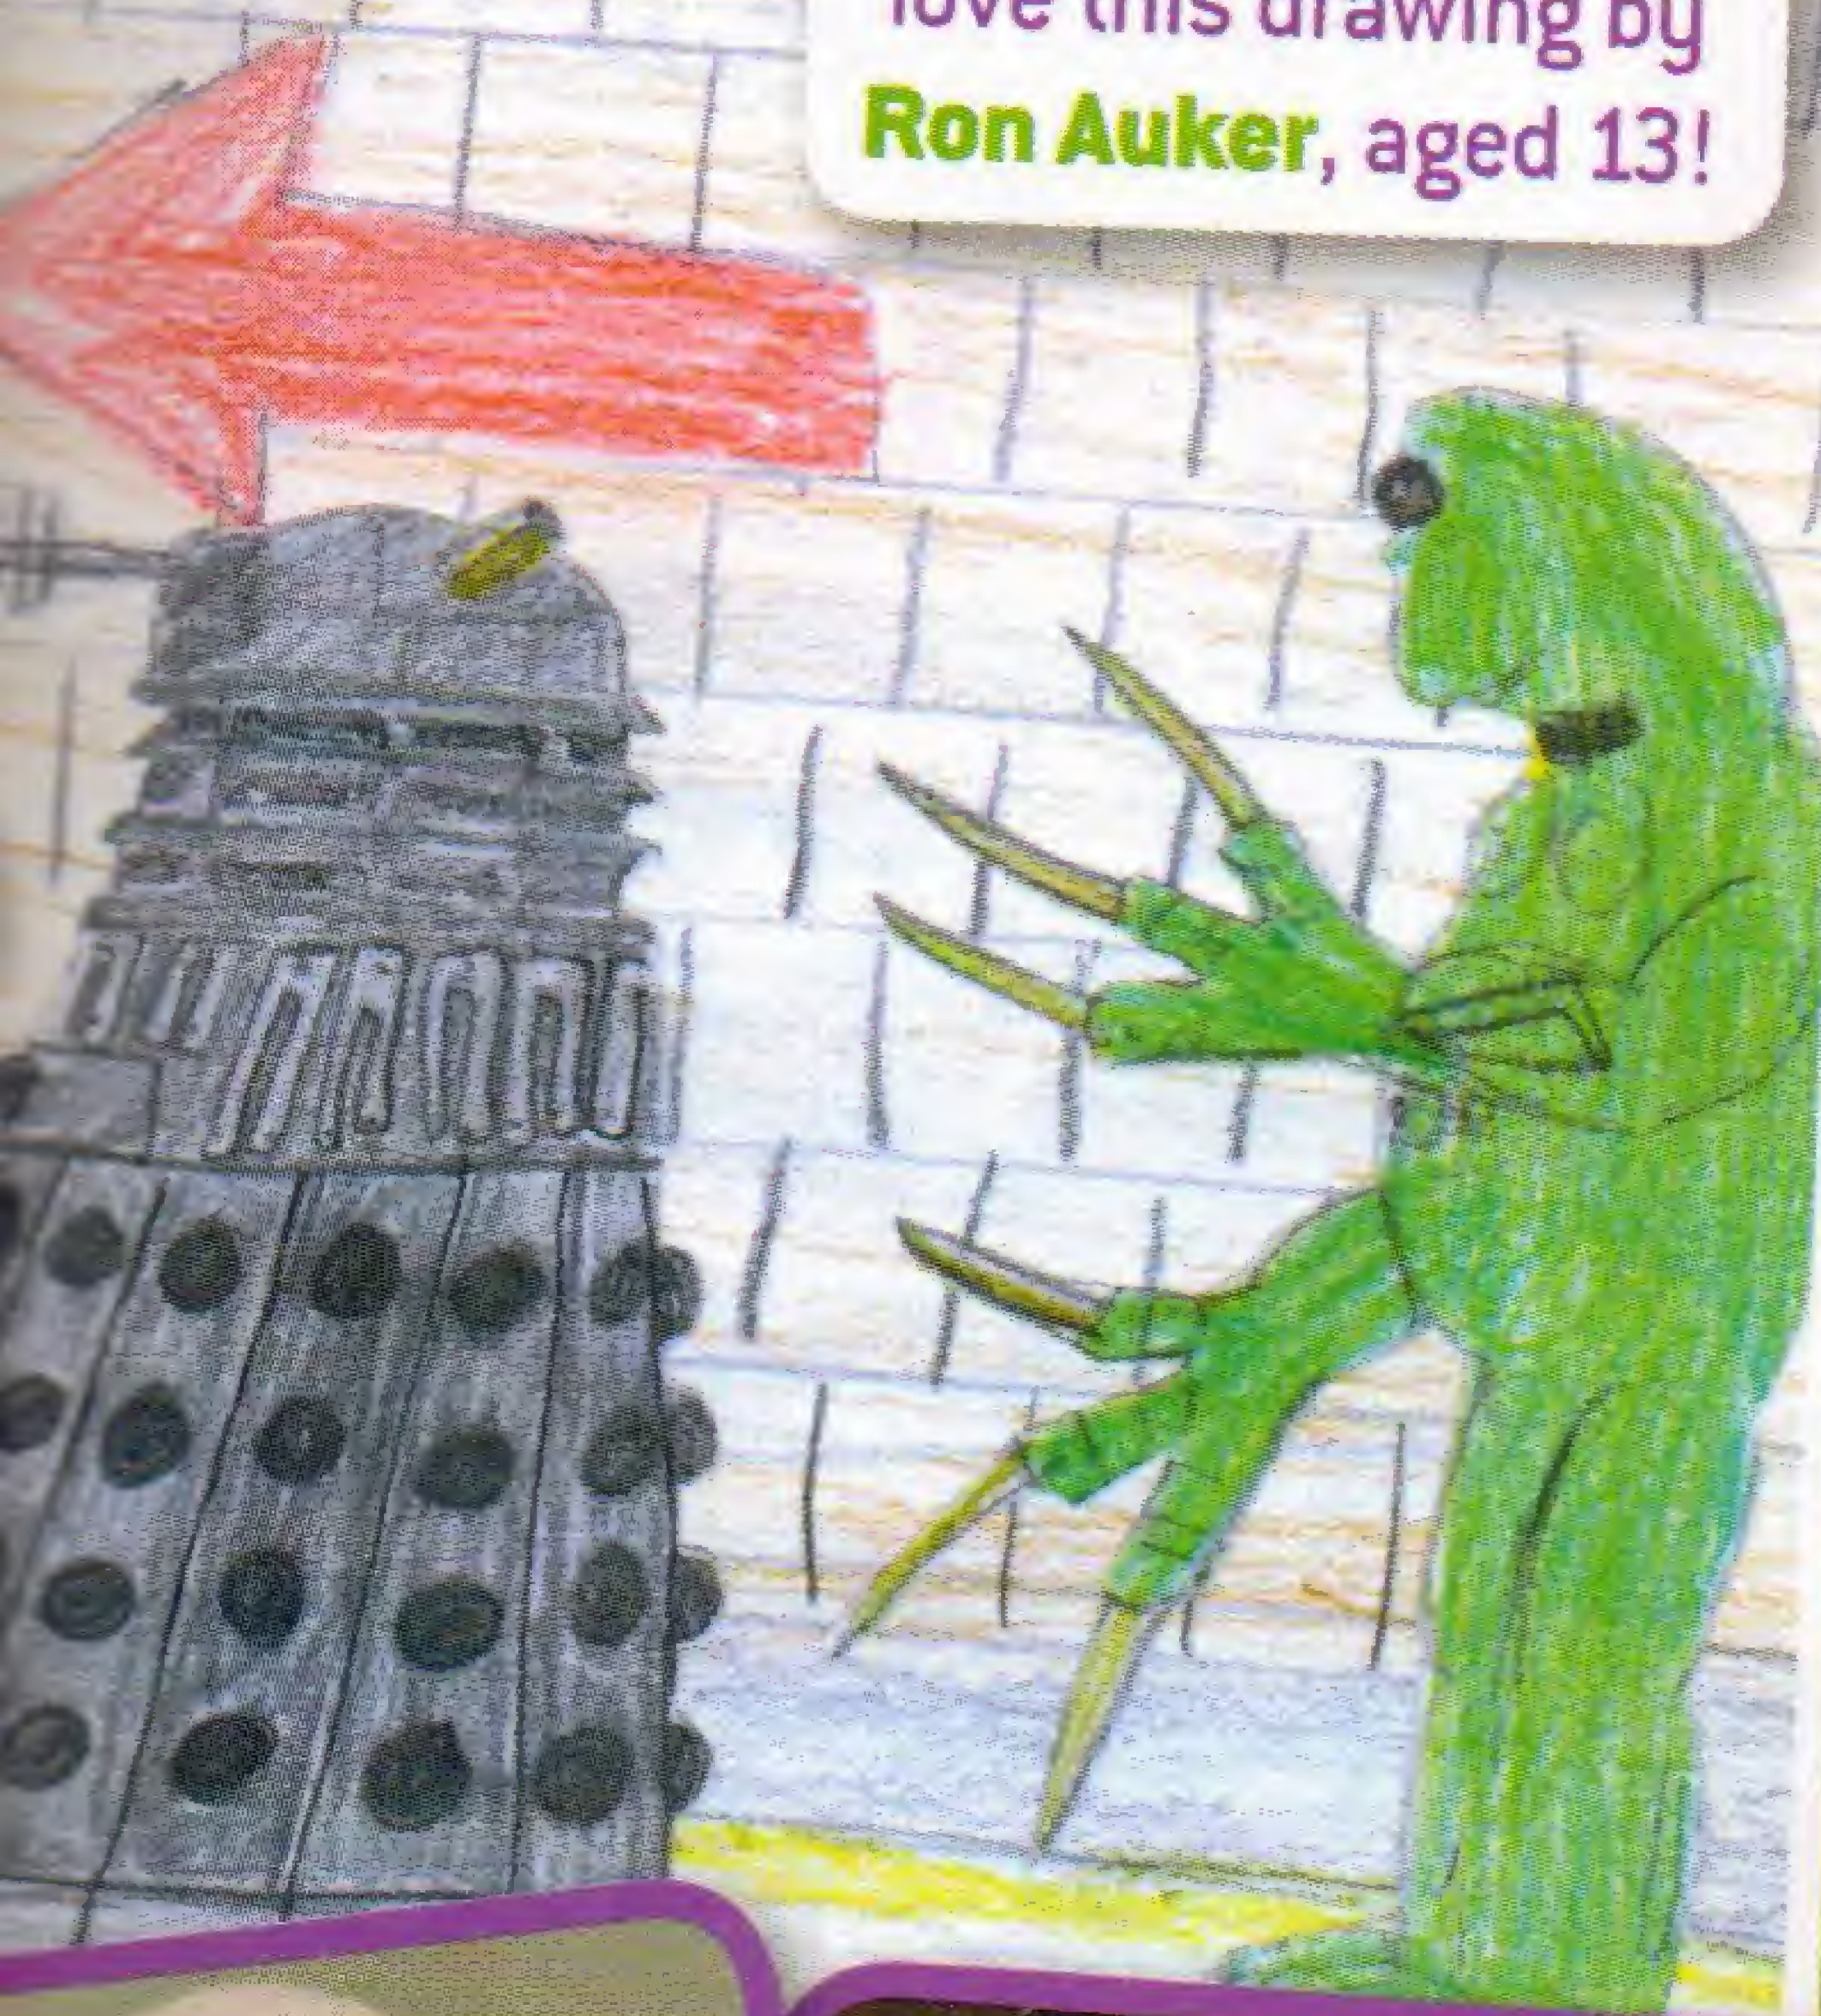

We think that **Eddie Banchini**, aged 9, makes a top Doctor! He raised £200 for his school in this wicked outfit too!

Rosie Bingham, aged 9, sent us this lovely drawing of the Doctor, Rose, K-9 and the TARDIS.

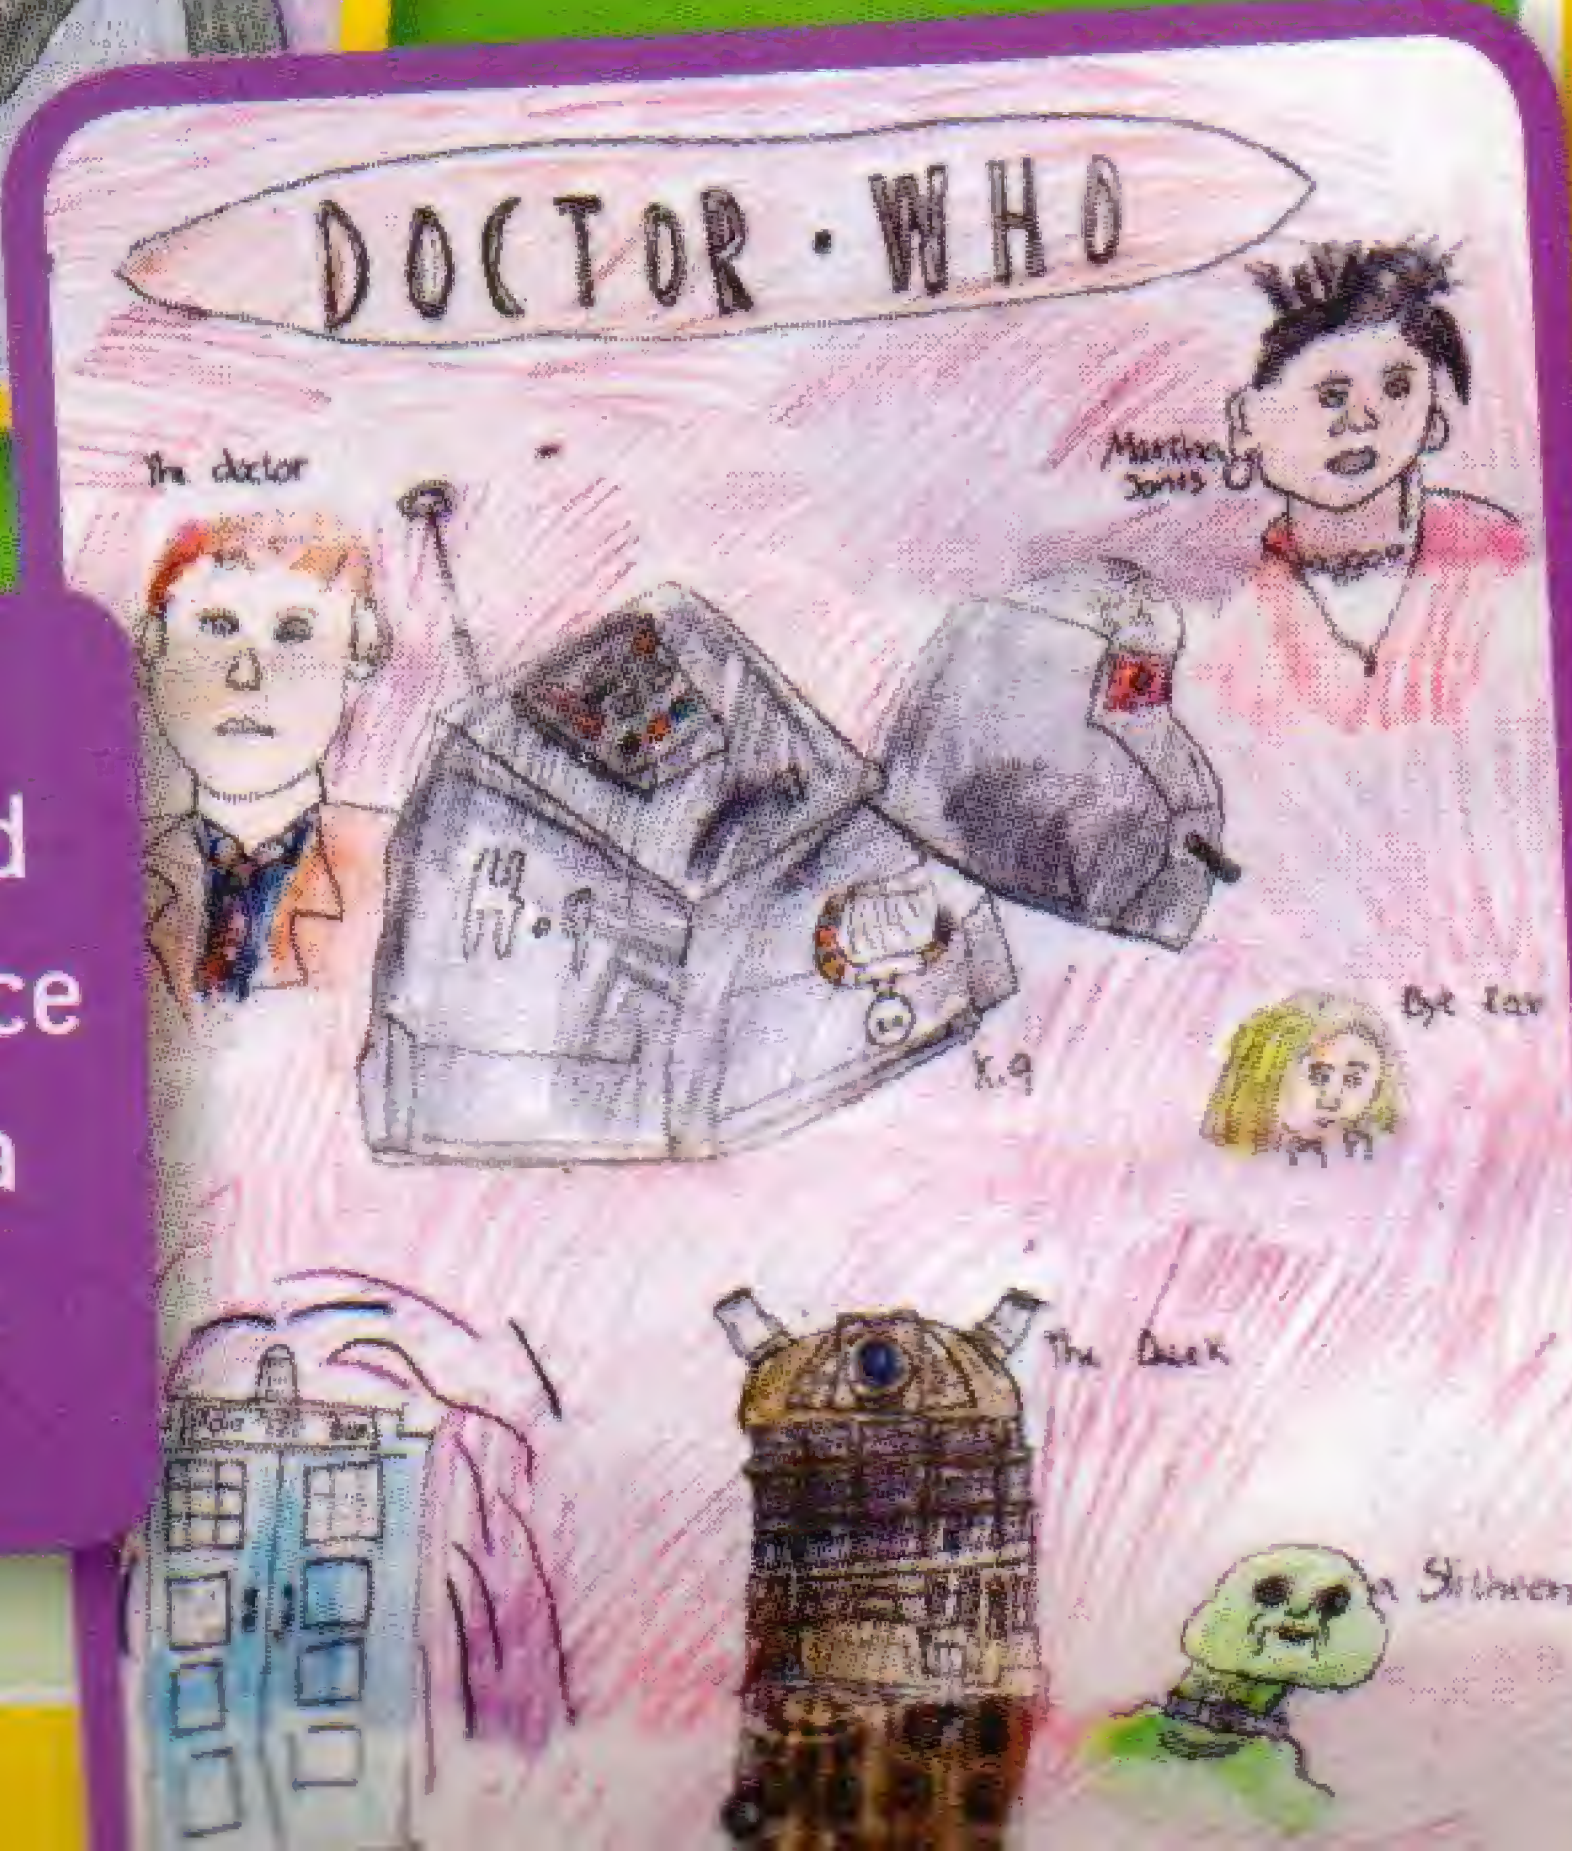

Roll up, roll up for the Doctor Who auditions today! We love this drawing by Ron Auken, aged 13!

Brothers William (Ood) and Robert Owen (Cyberman) look creepy in masks and hats!

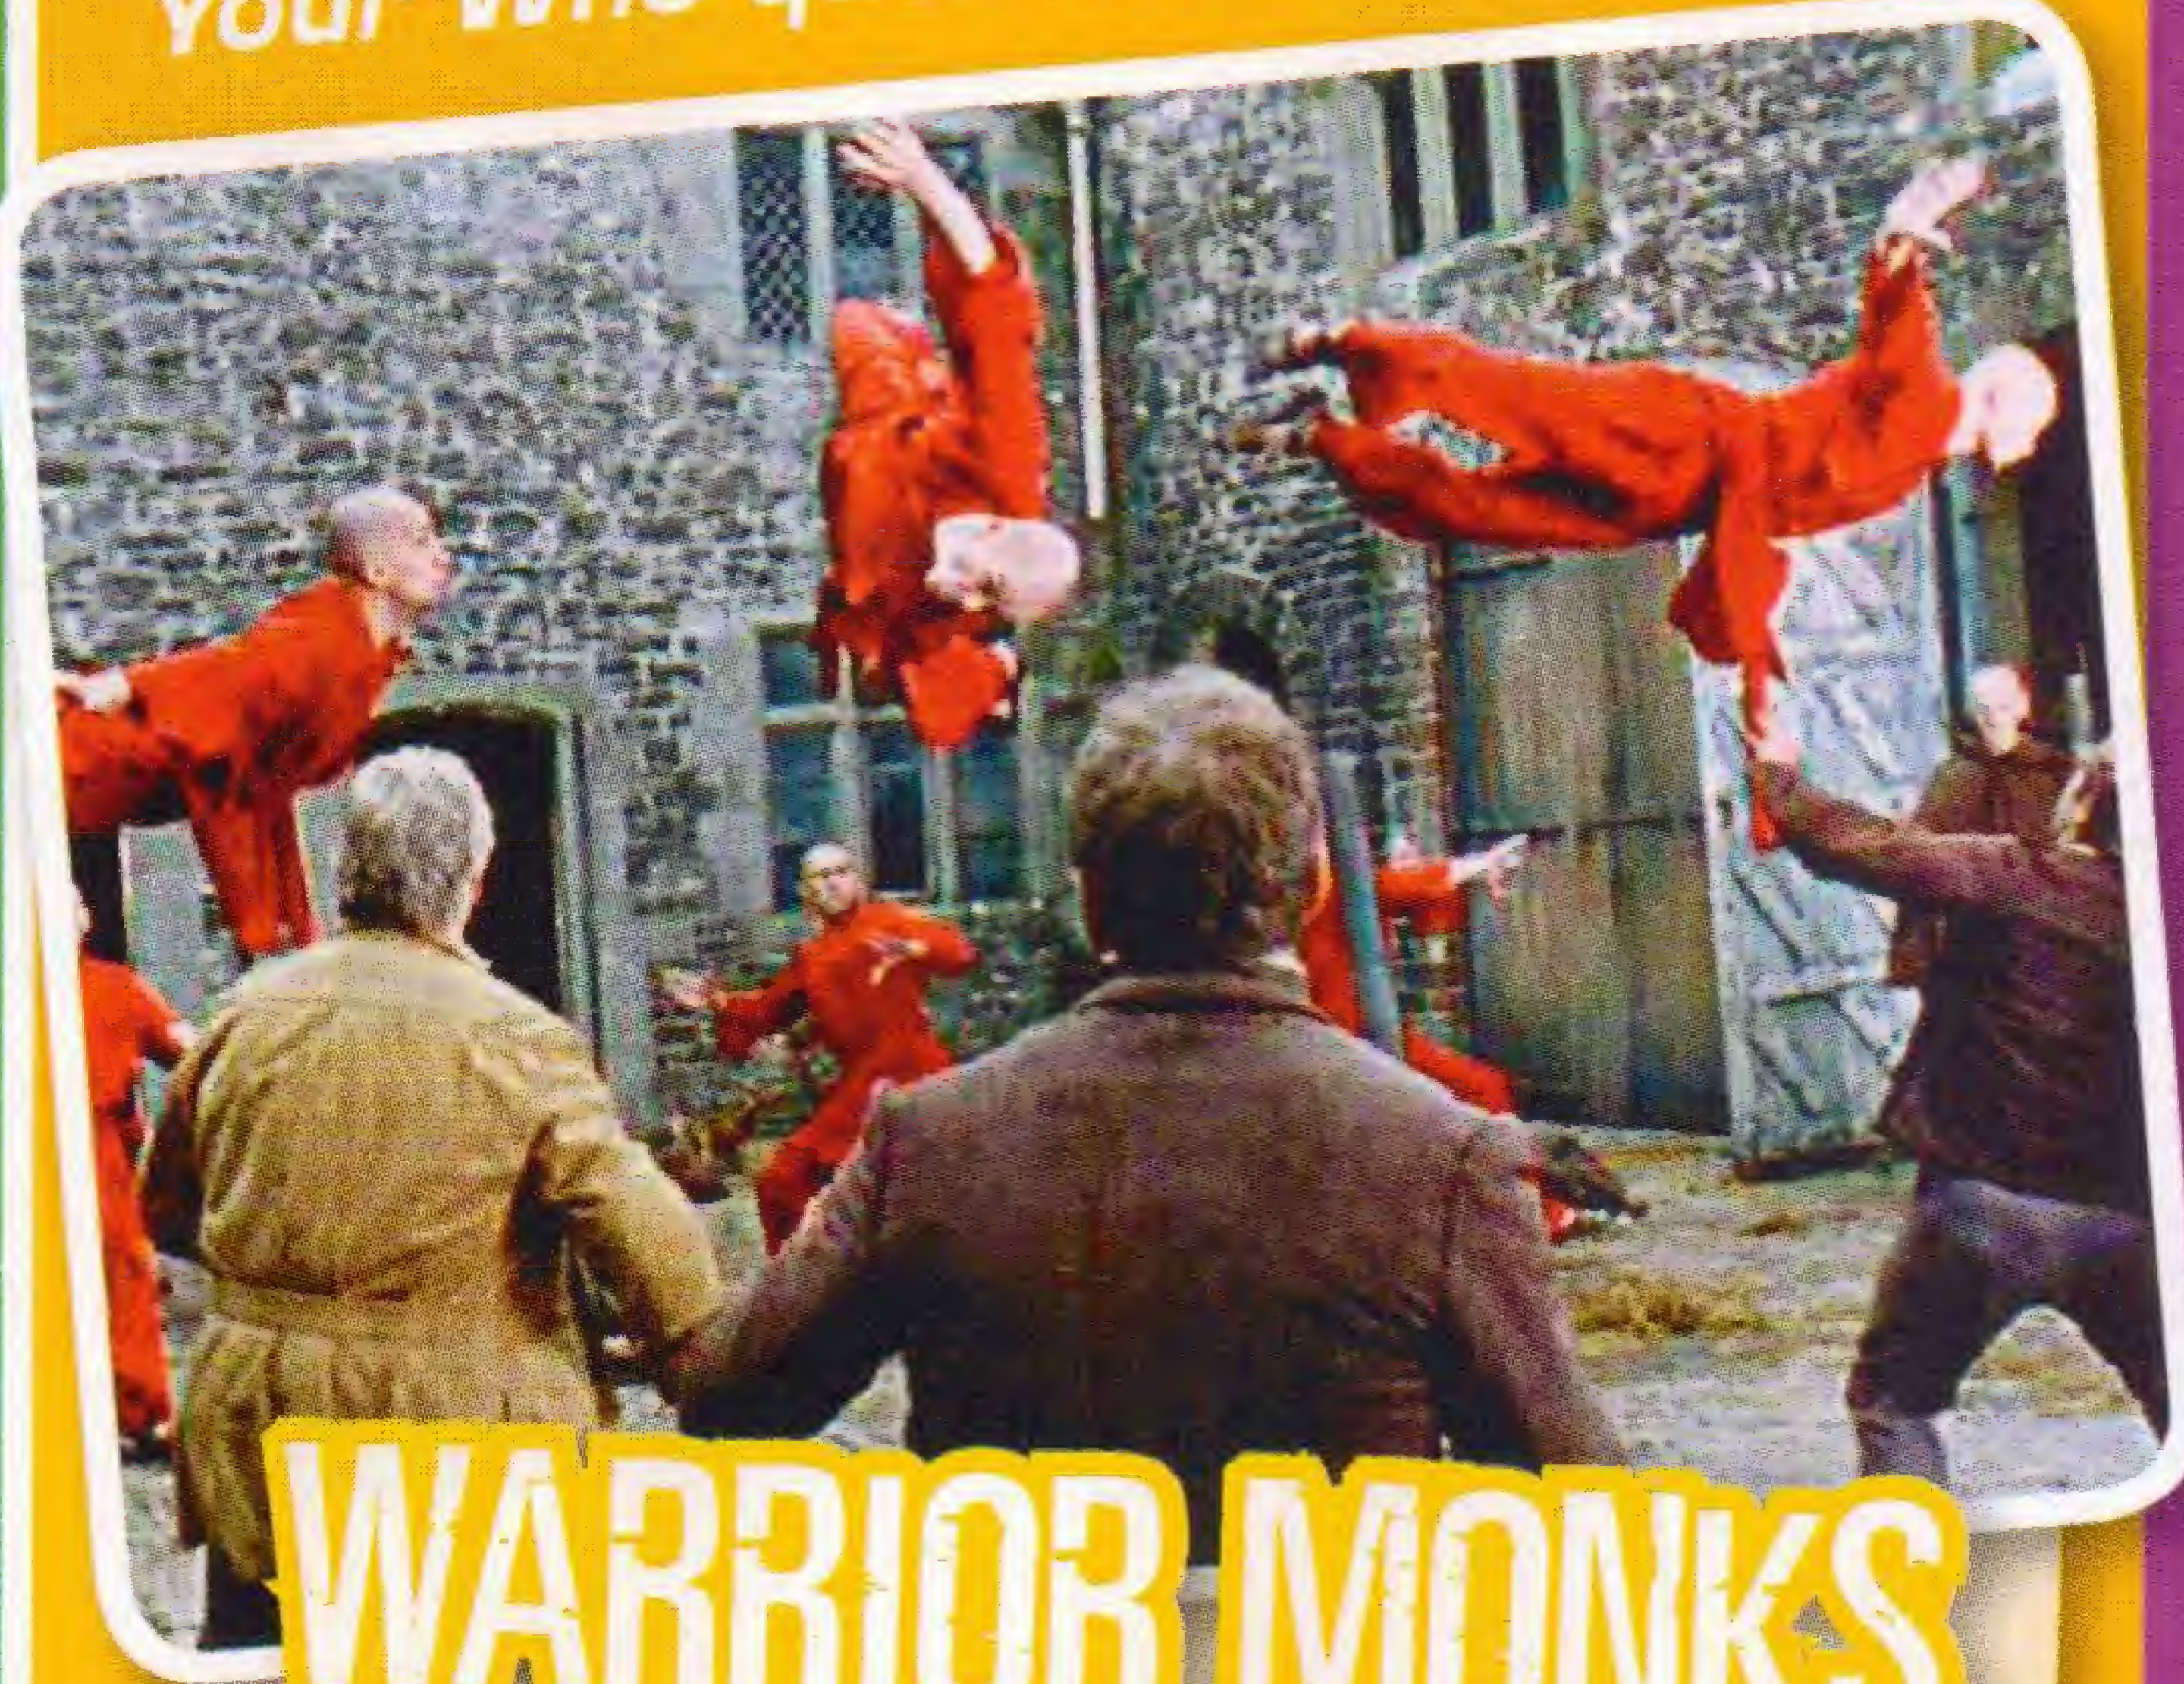

Sam Sherrington, aged 7, drew us this wicked Ood – it's really scary!

Ruby Martin, aged 10, did this ace drawing of a few friends and foes.

WHO KNOWS!

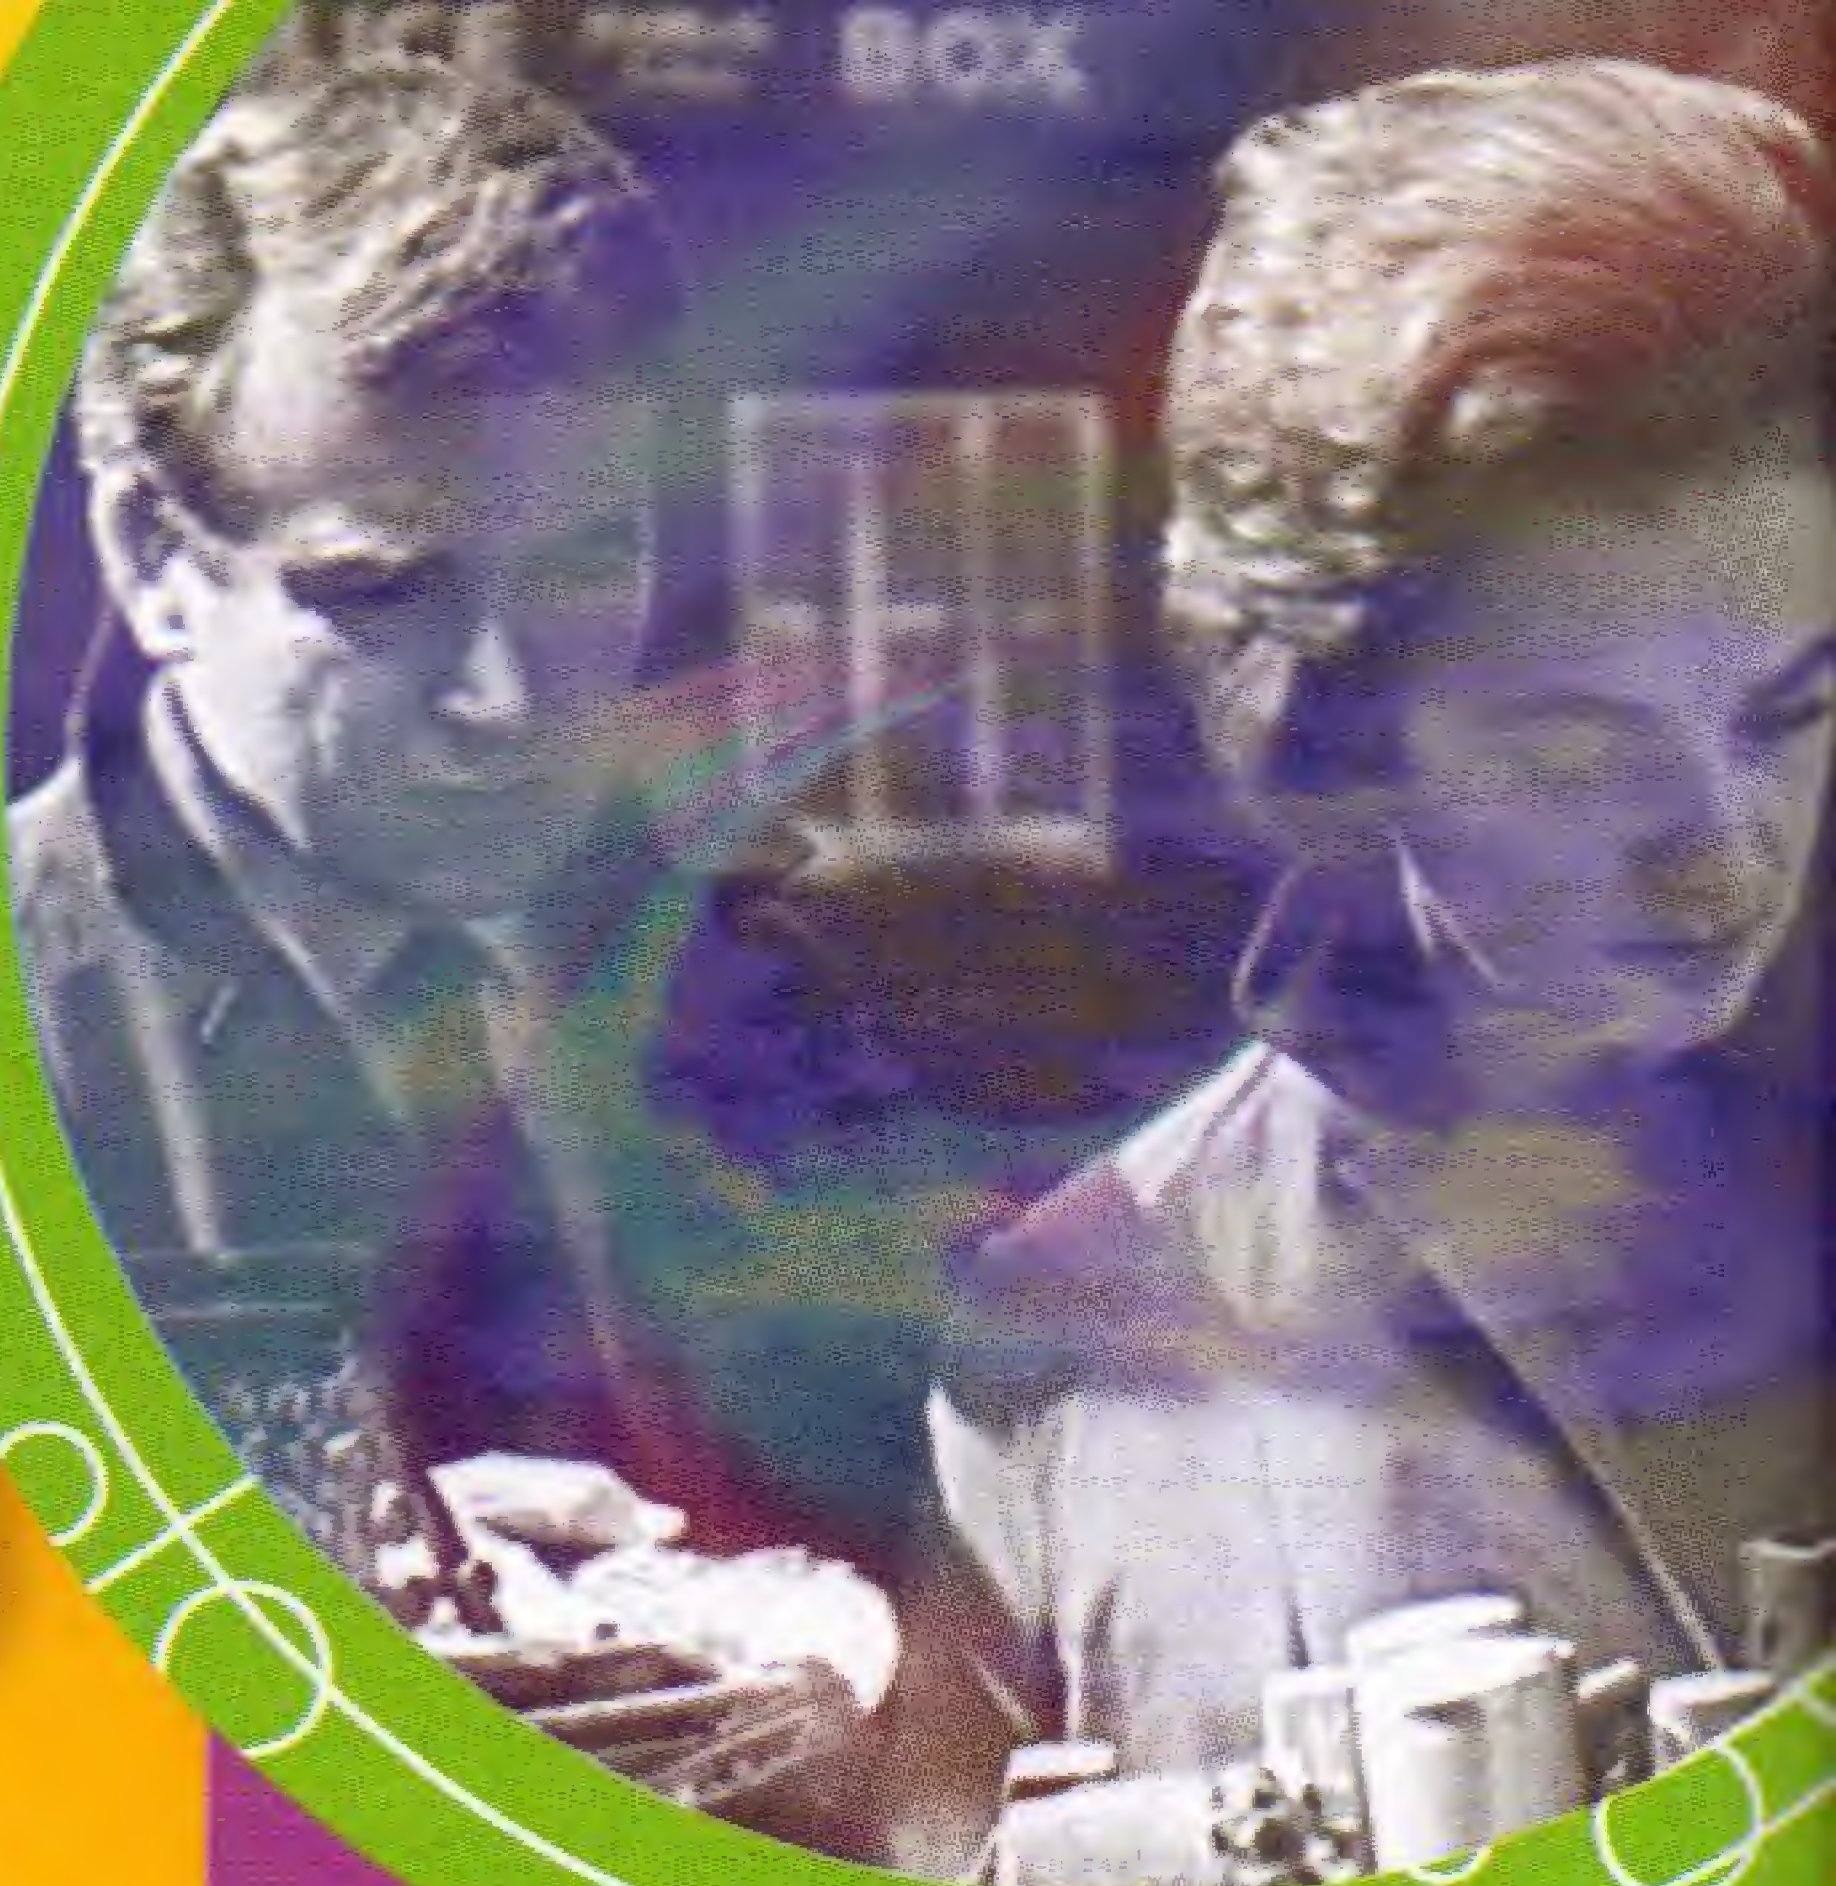

Your Who questions answered!

WARRIOR MONKS

Q Danny Stott wants to know what happened to the naughty warrior monks in last year's *Tooth and Claw*?

A The warrior monks, led by Father Angelo, wanted the Wolf they worshipped to infect Queen Victoria. Father Angelo was shot by the Queen to protect herself, and when the Doctor and Rose destroyed the Wolf, presumably the other monks decided the safest thing to do was run away.

EPISODE COUNT

Q Rhian O'Callaghan asks what the first episode was called, and also how many episodes there have been?

A The first episode was called *An Unearthly Child*, and was shown on 23 November 1963. Since then there have been 182 adventures in total (and a massive 724 individual episodes!). Wow!

BREAKDOWN ENERGY

Q Jasmine Gibson wants to know why cars broke down in *Fear Her*.

A Whenever Chloe Webber drew someone they were snatched out of thin air and trapped inside a picture. The powerful energy that did this affected the surroundings – and this included car engines.
